TWISTER RIPS HOMES. A tornado of the hit-skip variety dipped into Youngstown, O., early in the morning, lifted five one-story homes from foundations and crushed them to bits. The twister, preceded by heavy rains, killed one woman and injured at least six other persons. Total damage to the area was estimated at $200,000.

Mechem Rips Lausche Hike In Poor Relief

Call for $14½ Million Increase Brings Fire From Leader in Senate

COLUMBUS, Ohio (AP) — Another attack on Democratic Gov. Frank J. Lausche's two-year budget was launched today by the Republican leader of the GOP-controlled state Senate, C. Stanley Mechem (R-Athens).

Mechem says he and his Republican colleagues want to know why Lausche recommended an increase of 14½ million dollars in the state's appropriation for poor relief in the next two years.

Questions Use of Surplus

Monday night, within minutes after Lausche submitted his record 931-million-dollar budget proposal, Mechem and other Republican leaders questioned his use of 10 million dollars from the state treasury surplus for the last two years to balance the budget for the next two years.

The Senate, said Mechem, will investigate the need for an increase in the state relief appropriations from 17 millions to 31½ millions in the next two years.

Mechem instructed Sen. Tom V. Moorehead, Zanesville Republican and Senate Finance Committee chairman, to conduct the investigation.

Senate investigators, with the help of the Legislative Service Commission, may go into the field to investigate actual relief cases and inquire into the state-established standards which Mechem contends increase the relief bill to the state and local governments.

In Accord With Probe

House Speaker Roger Cloud (R-Logan) said he is in accord with the Senate investigation.

The flurry of the introduction of the governor's budget past, the Legislature continued to dig into the pile of accumulated bills while the House Finance Committee planned to open hearings tonight on the budget bill itself.

In actions yesterday:

The Senate passed, 30-1, and sent to the House a bill to permit boards of education to contribute to non-profit education television foundations up to one-half cent.

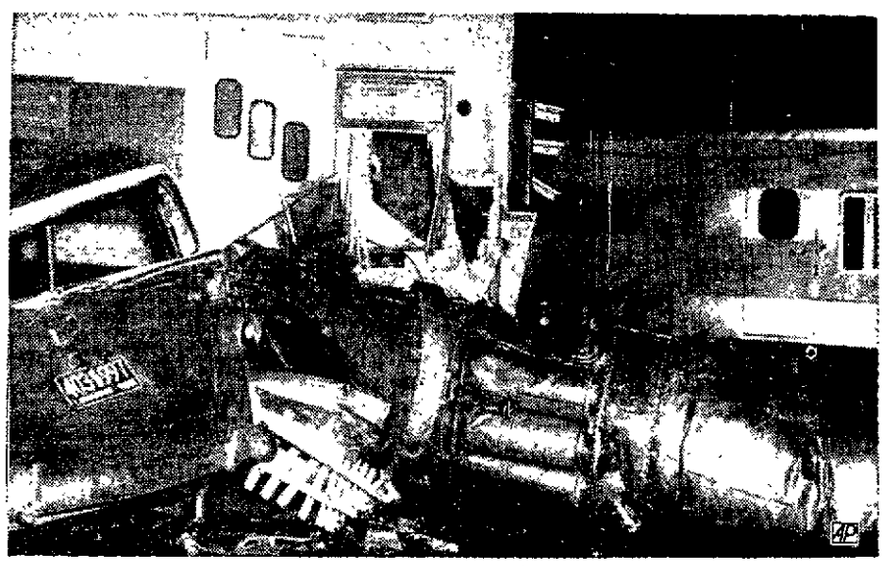
The House passed, 124-5, an emergency bill authorizing the issuance of more than 33 million dollars' worth of bonds to finance the state's share of construction of 42 major highway projects on which contracts can be let before Aug. 1 and to purchase about eight million dollars' worth of highway rights of way. The bill now goes to the Senate where quick action is expected.

Minimum Sentence Set

The House passed, 127-1, and sent to the Senate a bill to fix a one-year minimum sentence for 39 different felonies for which no minimum terms are set fourth under present laws.

The House passed, 118-4, and sent to the Senate a bill relieving owners and operators of aircraft from responsibility for the death or injury of a non-paying guest on the aircraft unless the death or injury results from the willful or wanton misconduct of the operator.

West Has Led in H-Bomb, Atom Weapon Race With Russia All Along, Ike Says



JET PLANE CRASHES INTO HOUSES. One of the jet engines of a B-47 bomber, which crashed into four houses and a trailer park at Lake Charles, La., rests between a station wagon and two house trailers in background. The plane, attached to the 68th Bombardment Wing of the 52nd Bomb Squadron, was returning from a night training flight with a three-man crew. The plane killed an undetermined number of persons as it exploded and sent flames skyward. The tragedy occurred six miles north of the Lake Charles Air Force Base, about one-quarter mile from U.S. Highway 171, on the outskirts of the city.

Backs Report By Churchill On U.S. Arms

Speculation on How Long Edge Will Last Pointless, Press Told

WASHINGTON (AP) — President Eisenhower said today the Western world has enjoyed all along a great lead over Russia in development of hydrogen bombs and atomic weapons.

He said he thinks it would be pointless to speculate on how long the lead may prevail. He just doesn't know.

Eisenhower's news conference remarks were in response to a request for comment on Prime Minister Churchill's statement yesterday that the United States has "many times" the H-bomb strength of the Soviet Union. Churchill added that Russia would be in a position, however, to launch a full-scale nuclear attack against the United States in two to four years.

Would Only Speculate

A reporter asked whether Eisenhower felt that Russia might be able to pull even with this country in three or four years.

After a pause, the President said any conclusions he might make in that field would be nothing more than speculation.

He went on to say we do know that the Western world has enjoyed a great lead in the H-bomb and the atomic weapons field in general.

How long that lead may last he just doesn't know, Eisenhower said.

There does come a time, he said, when if you get a big enough supply of a particular weapon, there is doubt as to whether it is important that you acquire a lot more such weapons.

Other Topics

The news conference also touched on these other matters:

POLITICS — Three times the President laughed off attempts to find out whether he will seek re-election next year. Once was when he was asked for comment on a statement by Sen. Goldwater (R-Ariz) that the Republicans probably couldn't win next year without Eisenhower as their candidate.

Eisenhower laughed, too, when asked whether he wanted to send any message to Vice President Nixon regarding Nixon's statement yesterday that he hopes Eisenhower will run again. The President said he had no message for the vice president but probably would have something to say to him when Nixon returns Saturday from his Latin American trip.

The third attempt came when a newsman asked whether it could be taken for granted that Eisenhower will attend the Republican nominating convention in San Francisco in August 1956. Eisenhower shot back a crisp no. The President would have no occasion to go to the convention unless it was to make a speech accepting the nomination.

Sen. McCarthy Blasts Army on Security Risks

Ft. Monmouth Officers Grossly Incompetent, Negligent, He Claims

WASHINGTON (AP) — Sen. McCarthy (R-Wis) today accused Army officers of "grossly negligent and incompetent" handling of security risk cases at the radar laboratories at Ft. Monmouth, N.J.

He made public a document alleging that "Army officials displayed an uncooperative and deceptive attitude" toward the Senate Investigations subcommittee headed by McCarthy in the last Congress.

McCarthy had planned to file the document as a report to the Senate. In a last minute switch, he announced he was filing it instead with the subcommittee's parent, the Government Operations Committee.

The subcommittee's three Democratic members declined to sign it, declaring in a statement that "we can neither accept the credit or responsibility for this report." Most of the Ft. Monmouth hearings were held during six months in which they boycotted the subcommittee in a row with McCarthy. The three are Chairman McClellan (D-Ark) and Sen. Jackson (D-Wash) and Symington (D-Mo).

McCarthy's document said the investigations showed that the Rosenberg spy ring had stolen Signal Corps secrets for Russia at Ft. Monmouth and "may on the basis of available evidence, still be operating."

Secretary of the Army Stevens said during McCarthy's probe that the Army's own investigation had turned up no current espionage there.

39 Koreans Die as Fire Sweeps Railway Coach

PUSAN, Korea (AP)—Thirty - nine Koreans were trapped and burned to death last night when fire swept through a railroad car of a Seoul-bound train in the Pusan railway station.

A U.S. Army spokesman said the fire, of unknown origin, broke out about 6:15 p.m. in a loaded passenger coach. The fire was brought under control in 15 minutes by American and Korean fire fighters.

The spokesman said the blaze spread so quickly none of the Koreans had a chance to get out.

The fire destroyed one coach and damaged three others.

No U. S. military personnel were aboard.

CINCINNATI (AP) — Miss Helen Cowdrey, 52, was killed by an automobile last night as she was crossing a street.

Armed Robber Holds Up Local Grocery Store

An armed robber held up a Marion grocery store just before 9 p.m. Tuesday night and escaped on foot with about $12.

The youthful appearing gunman walked into the C and L. Market at 182 Patten St. as Mrs. C. A. Bolin, wife of the owner, sat alone at the cash register writing a letter.

"I looked up and there he was—standing there without saying a word and pointing a gun at me," she said.

Apparently wearing some kind of soft-soled shoes, the bandit had quietly slipped in the front door of the store wthout attracting Mrs. Bolin's attention.

"When I first saw him I thought it was just a kid playing cops and robbers," Mrs. Bolin said today.

When he didn't say anything, she jumped up from her chair and asked him if he wanted the money.

"Yeah, hand it over to me," he told her, Mrs. Bolin recalled. Thoroughly frightened by this time, she put her hands over her head and said, "There it is, get it yourself," indicating the cash register.

Waving the gun at her, he said, "Now you get me the money out of that thing and let's don't have any funny business."

Pope Observes 79th Birthday

Pontiff Celebrates Double Anniversary

VATICAN CITY (AP)—A roar of glad cheers greeted Pope Pius XII today on his double anniversary—the 79th of his birth and the 16th of his election as pontiff.

Thousands of Romans, tourists and pilgrims gathered in sunny St. Peter's Square to greet the spiritual leader of more than 400 million Roman Catholics.

When the white-clad figure of the convalescing pontiff appeared in his apartment window to bless the throng, a great roar of "Viva il Papa"—Long live the Pope—rose to greet him. Gold and white papal flags fluttered from Vatican buildings. Women and girls waved white handkerchiefs.

The throng suddenly hushed when the pontiff lifted his arms in blessing. Many knelt on the cobblestones.

The Pope's voice, carried to the crowd by loudspeaker, seemed stronger than at any time since his grave collapse last December.

He spoke in Latin, giving his blessing to all assembled below. Automobile and bus horns that had added their clamor to the noisy greeting were silenced as he spoke.

Income Tax Cut Foes See Firm Stand in Senate

Committee's Action in Rejecting Proposal Faces Debate on Floor

WASHINGTON (AP) — Foes of a plan to cut everybody's taxes by $20 next year predicted today the Senate would back up its Finance Committee's rejection of the proposal.

But Sen. Byrd (D-Va), chairman of the Finance Committee and one of the strongest opponents of the tax cut proposal, said in an interview the big fight would come when the bill goes to a conference with the House, which has voted a $20-a-head income tax reduction to take effect Jan. 1.

Both sides in the politically potent dispute were preparing for hot Senate debate, possibly starting Friday. The Democratic Senate leadership indicated it plans to make a party fight for the tax cut. But one source said about 8 to 10 Democratic senators, mostly Southerners, might refuse to go along.

Byrd said he was confident the Senate would not reverse his committee, which yesterday voted 9-6 to knock the income tax cut out of a bill that would also extend corporation income tax and certain excise tax rates for another year.

Sen. Millikin (R-Colo), senior Republican on the committee, expressed a view similar to Byrd's. He said he expected very few Republican senators to desert the administration on the issue. President Eisenhower vigorously opposes an income tax reduction at this time because of the continuing budget deficit.

Ohio River Up, No Flood Seen

Rain Spreads Runoff On Outlying Lowlands

COLUMBUS, Ohio (AP) — Recent rains have swollen the Ohio River and its tributaries to the highest levels since 1952 in some spots, weather observers reported today.

But no serious damage was reported by the flood waters which covered lowlands in many areas. Many state roads were blocked by waters overflowing their banks.

The Ohio River at Portsmouth was reported at 51.3 feet today against a 50-foot flood stage outside the town. Water overflowed in some fields about four miles west of the city. At Moores' Lane, farmers were forced to move their cattle to higher ground. Portsmouth itself is protected by a flood wall which handles a 77-foot flood stage.

Portsmouth observers said the river was at its highest since 1952. A crest of 52 feet is expected tonight. The Portsmouth area has received 2 inches of rain in a period extending Saturday through Monday.

At Marietta where some roads have been closed because of high waters for several days, no immediate danger of serious damage was seen.

At Cincinnati, the river stage was reported at 51.5 feet and rising at almost an inch an hour. Flood stage is 52 feet. The weather bureau expects a flood stage of 54 feet probably late tomorrow or early Friday.

Snow Flurries, Cloudy Skies Predicted Tonight

Skies were clear over most of the nation today but a decided change — considerable cloudiness and snow flurries is forecast for tonight and Thursday in this section of the country.

The low temperature is expected to range between 15 and 20.

At noon today in Marion, the temperature stood at 42. The overnight low was 29.

U.S. Readying Jet-Propelled Atom Bombers

Air Force To Assign First B52s to West Coast by Late Spring

WASHINGTON (AP)—An Air Force wing will be equipped beginning late this spring with jet-powered B52 atomic bombers.

The huge Boeing Stratofortresses fly over 600 miles an hour and have a range of over 6,000 miles without mid-air refueling.

First wing to get them will be the 93rd Bomb Wing at Castle Air Force Base, Calif., the Air Force announced today. Eventually, B52s will replace the Strategic Air Command's present fleet of piston-and-jet-engine B36s in all 11 wings.

Will Replace B36s

Secretary of the Air Force Harold E. Talbott's official announcement made no reference to recent statements on Capitol Hill reporting that "bugs" had developed in the big jet bomber. The timing of the announcement seemed to serve as a reply to those reports.

The 93rd wing is now equipped with B47 Boeing medium jet bombers.

Over Score Produced

More than a score of the eight-jet, swept-wing B52s are understood to have been produced so far by the Seattle plant of Boeing Airplane Co. The company also is beginning to produce B52s at Wichita, Kan.

With a minimum of 30 bombers required for a wing of heavies, it may be a year or more before the 93rd is a trained and combat-ready organization for operation as a unit of the Strategic Air Command.

The B52 uses a six-man crew, compared with three in the B47 medium jet bomber and 10 in the B50 piston-engine medium, which is being rapidly replaced with B47s.

Nehru's Party Defeats Reds In Key Election

NEW DELHI, India (AP)—Prime Minister Nehru's Congress party and its allies snowed under Communist nominees in first returns today from a key election in Andhra state.

The Reds, once so confident of victory they announced plans for taking over the south Indian state's government, won only two of the first 52 state legislative seats so far decided.

Unofficial newspaper tabulations of early results gave victory to 38 candidates of the United Front, which is led by the Congress party. The State Legislature has 196 seats.

Among the defeated Communist candidates were some of the state party's hierarchy. Red leaders immediately complained voting was unfair.

Of the other 12 seats decided, the Praja (People's) Socialist party (PSP) won 4 and independent candidates 8.

The counting is expected to continue for several days.

The voting among Andhra's nearly 21 million people, held over a 17-day period, ended Sunday.

AEC Calls Off Big Test Blast

May Be Held Friday If Weather Is Suitable

LAS VEGAS, Nev. (AP) — Atomic Energy Commission scientists, after a last-minute conference, called off the "big shot" scheduled for just before dawn today. They said weather conditions were unacceptable.

A spokesman said that no shot would be fired tomorrow either, but that a weather evaluation session would be held tomorrow to determine if the detonation would be rescheduled for Friday morning.

The AEC said winds changed after a 9:30 p. m. weather conference last night and an explosion would have resulted in undesirable fallout in the area northeast of Las Vegas.

The off-postponed shot, to have been fired from a 500-foot tower, was the one originally scheduled to open the spring test series.

Weather conditions were considered near perfect when yesterday's small nuclar shot was fired from a 30-foot totwer on Yucca Flat.

Although the blast was in the lower range of nuclear devices, the flash was seen in five states within a radius of 475 miles. Atmospheric conditions were near perfect. The atomic cloud stretched out nearly 200 miles and no radiation fallout was reported outside the test site.

The AEC said the device, designed by its Livermore, Calif., laboratory, had a yield of "several kilotons." This is a fraction of the standard A-bomb's power of 20 kilotons, or 20,000 tons of TT.

Woman Killed, Two Injured in Auto Collision

Resident of Cleveland Dies in Head-On Crash Just East of Crestline

CRESTLINE — A Cleveland woman was killed and two men were seriously injured in a two-car collision at 10:35 p.m. yesterday on U. S. Route 30-N, two and six-tenths miles east of here

Mrs. Phyllis Annette Small, 47, of Cleveland, was pronounced dead on arrival at Crestline Emergency Hospital by the Crawford County coroner, Dr. B. P. Mansfield. Death was attributed to a crushed chest and fractured ribs.

Mrs. Small was a passenger in a car driven by Worcester R. Thomas, 44, of Canton. Thomas suffered body bruises, a fractured hip and lacerations of the body, face and arms.

Driver of the second car was Wilbur H. Pfeiffer, 48, of Findlay. He suffered body bruises and lacerations of the face and arms.

Thomas and Pfeiffer are in the Crestline Hospital and reported in "fair" conditon.

Investigating state highway patrolmen from the Mansfield post said the two cars collided head-on and both were demolished. Circumstances of the crash were not definitely determined and state patrolmen are still investigating.

Mrs. Small's body was taken to the Garverick Funeral Home in Crestline.

OHIO JET PILOT KILLED

VICTORVILLE, Calif (AP) — Air Force Lt. John L. Beighley, 26, of Waynesburg, Ohio, died yesterday when his F86H Sabre jet fighter crashed and burned on the runway at nearby George Air Force Base. An Air Force spokesman said Beighley was returned from a training flight when the accident occurred.

Senator George Says:

Soviet Control of Chinese Reds Holds Key to Peace

WASHINGTON (AP)—Sen. George (D-Ga) said today danger of war in the Far East may lie primarily in an inability of Russian leaders to veto aggressive plans of the Chinese Communists.

George, chairman of the Senate Foreign Relations Committee, said in an interview he thinks the Red Chinese "may be disposed to press the issue on Formosa" but doubts that the Soviets favor any aggressive move at this time.

New Demands Made

Some further hope of easing one source of tension between this country and Red China was held out by the State Department yesterday in announcing a new demand for release of 41 American civilians held behind the Bamboo Curtain. Red China again replied that no Americans are being "unjustly detained."

The two countries do not maintain diplomatic relations, but they did set up a system of direct negotiations at Geneva last summer to discuss the cases of Americans held by Peiping. Eleven talks have been held.

18 Americans Freed

State Department Press Officer Henry Suydam said the Red Chinese consul general stated Americans needing medical care would get it and promised to reply on requests for information about Americans who have not been heard from. Suydam said there would be another meeting.

Suydam noted that since the negotiations started, 18 Americans

Two Couples Included

7 To Receive Citizenship At Hearing Here Monday

Seven Marion County residents, including two persons who spent some time in a German concentration camp, are scheduled to become American citizens Monday at a naturalization hearing in Common Pleas Court.

Two husband-wife combinations will be included among those becoming naturalized citizens.

One husband and wife still bear the scars of Nazi concentration camps on their left arms, court officals reported today.

The two are Joseph and Eva Hamelsdorf Herszkowicz of 247 Elm St. Herszkowicz is now part owner of the Marion Window Cleaning Co.

Both natives of Poland, they were married in an American Displaced Persons camp in Germany after the war.

Herszkowicz bears dim tattoo marks on his left arm, while his wife has the concentration camp numerals branded clearly on hers. Both came here in 1949. The couple has one child.

The other married couple is John and Maria Ilona Orlowski of 336 S. High St., both natives of Hungary. They also came here in 1949.

The three other persons who will become citizens are Mrs. Mary Davidson Howald of Prospect, a native of Scotland and the wife of Ralph James Howald; Maxfield Taylor Sheppard of 225 Chase St., born in Manitoba Province, Canada; and Aslaug Irene Anderson Lorentz of the Key Town Camp, a native of Norway. Her husband, Arthur Anderson Lorentz, was naturalized here last July.

They also entered the United States in 1949.

1959 To Be Crucial

U.S. May Retain H-Bomb Supremacy 3 or 4 Years

WASHINGTON (AP) — The United States has only about three to four years left to carry on the cold war with Russia from a position of overwhelming military might.

After 1959, the power relationship will become more nearly balanced. That will mean international political advantage for Russia.

Noted by Churchill

"Somewhere about that time, unless there have been profound changes in the Soviet state and its leadership, the Russians may develop a technique of diplomacy by ultimatum. They may attempt to take over border states merely by threatening hydrogen bomb destruction.

These points, particularly as to timing, stand out directly or by implication in British Prime Minister Churchill's statement to the House of Commons yesterday.

Churchill noted the boast last month by Soviet Foreign Minister V. M. Molotov that Russia may have hydrogen bomb superiority over the United States. Actually, Churchill said, the United States is the only country now able to deliver an H-bomb attack "on a few hours notice." He added, however, that Russia in three or four years will have H-bomb power to cripple the West.

Soviets Still Behind

Churchill's comments about power relationships are borne out by the best information available here in official quarters.

Russia is still behind in the race. It is not enough to her to explode a thermonuclear bomb. To use it

Dulles Pledges U.S. Assistance For Vietnamese

SAIGON, Viet Nam (AP)—U.S. Secretary of State Dulles assured Premier Ngo Dinh Diem Tuesday of massive support from the Manila Pact powers and particularly the United States if free South Viet-Nam is attacked by the Communists

In a meeting at Independence Palace, the Nationalist premier told Dulles he is completely satisfied with arrangements drawn up by the eight Manila Pact powers at Bangkok last week for Viet Nam's defense.

The American official, in his first visit to what is regarded as the most sensitive area in Southeast Asia, expressed confidence in Diem's ability to solve the nation's critical internal problems. He said Britain, France and all other responsible nations concerned share this feeling.

Diem described the two chief problems facing his government as the resettlement of some 700,000 refugees from the Communist North and the neutralization of special interest groups which are hindering the refugee program.

It is urgent, Diem said, that security now disturbed by dissident troops of the Hoa Hao religious sect be restored before May. Otherwise, he said, it will be impossible to transplant the refugees to ricelands in time for the planting intended to make them self sustaining.

Dulles and Diem also examined the question of total autonomy for the Vietnamese army, which continues to be staffed by many French officers. Dulles is said to have been satisifed that the program of replacing the French with Vietnamese is progressing satisfactorily.

An aide to Dulles threw cold water on Burmese suggestions the United States send an unofficial mission to talk with Red Chinese Premier Chou En-lai.

91 Types of Planes Being Built in U.S.

WASHINGTON (UP)—To maintain American air supremacy in commercial and military aviation, the United States aircraft industry today is producing 91 different models of airplanes, exclusive of pilotless aircraft.

Planes, official publication of Aircraft Industries Association, said its recent survey showed that 28 different airframe manufacturers have a total of 65 military aircraft models in production — ranging from light liaison types to supersonic bombers. In addition, 26 models of civil aircraft are being built for the world commercial market.

The AIA survey also showed that nine models of military helicopters are in production and that six helicopter models are available to the commercial market.

Significant indication that we are maintaining leadership in the air is that, for the first time, engine manufacturers are building more different models of jet engines than of piston engines, the magazine said.

Springfield Baptist Church Factions in Feud Over Pastor

SPRINGFIELD Ohio (AP) — One faction of a divided congregation armed with a court order, broke into locked St Johns Baptist Church yesterday

Police gave this version of the incident

The church body has split over whether the pastor the Rev S. D Edwards is worthy to serve

A group led by deacons charge him with "wrongful actions," but another group led by James Gray Ploy Rogers and Lonnie Adams, thought the pastor should have a chance to clear himself

The latter group planned to meet in the church but found it locked Common Pleas Judge Golden C Davis gave them a court order to hold a meeting in the church

With this in hand they forced their way into the church and held a three-hour meeting After the meeting they said they decided to retain the pastor

BANK FACTS FOR YOU

Why is a bank auto loan best?

Ask that question of your neighbors who have used our bank's new-car financing plan. They'll tell you that it's best because low bank rates make it economical ...once-a-month instalments are arranged to suit the borrower's circumstances... there are no "extra" charges... and the initial car insurance premium may also be included in the financing. They'll tell you, in short, that it's best because it offers *all-around* satisfaction.

You use care in choosing a car; don't use less in choosing a loan plan. You owe it to yourself to get details on our plan before you decide. Come in for them.

Galion Child Happy With New 'Look'

Public Welfare Agency, Trouble Clinic Lend Hand to Youngster

GALION — The two smiling little eyes of five-year-old Paula Bedson today can look straight at you . . . and with gratitude and happiness that her eyes are really straight.

This wasn't so last Dec. 27, because Paula then had what is termed "strabismus." This condition is where both eyes turn inward in a very crossed manner. This was something that Paula had since birth.

On Dec. 27, Paula was taken to Columbus. The next day eye surgery was performed on the muscles of her eyes, and on Jan. 3, Paula was discharged from the hospital. her eyes completely straightened She was re-examined Jan. 13 by an optometrist and it was found that Paula doesn't even need to wear glasses. More than this, there was absolutely no loss of vision from the operation.

—:—

HAD IT NOT BEEN for a unique organization in Galion, all of this might never have come to pass. The handicap that Paula might have suffered in her life can never be known, in addition to the possibility that she might have developed a complex which would affect her whole life from a psychological viewpoint.

The case came to the attention of the Galion Trouble Clinic, an organization believed to be unique in the state as well as in this area. Not quite two years old, the clinic already has performed an outstanding service to the community by extending a helping hand to many who are unable to solve their problems alone. The clinic has helped in instances where there has been no other source of help available and the cases are so diversified that seldom are two alike.

Little Paula Bedson's case might not be so different from many others in the world, but what makes Paula's different is the fact that nothing had been done for her and probably never would have been until it was too late, had the Trouble Clinic not heard about her.

"These are the wonderful things that inspire us to go on with our work, because this child had gone unnoticed until Margaret Garrett called our attention to the case," reports Miss Margaret Loris, president of the Trouble Clinic.

—:—

MRS. GARRETT is case worker for the clinic as well as city health nurse. She first noticed Paula's condition when she went to the home, where Paula lives with her mother and three other children, on a routine call as city health nurse. Mrs. Garrett learned that Mrs. Bedson became concerned about Paula last summer and took her to a local optometrist. Due to Mrs. Bedson's lack of funds, the optometrist could advise no further help. Mrs. Garrett also consulted him and found that he could only recommend that Paula be examined by an optomologist.

Finances were not available for this. Then Mrs. Garrett thought that the Trouble Clinic might be able to help. The clinic provided transportation for Paula to go to Bucyrus for examination by an optomologist, Dr. Martin Helfrich. The clinic also paid for the first eye examination. This doctor recommended eye surgery.

The next step taken by Mrs. Garrett was to contact the Department of Public Welfare of the State of Ohio which has services for crippled children under the section of prevention for blindness and has a nursing consultant for this territory. The consultant paid a visit to the home, made a preliminary application and examination and this was sent to the state office. The case was then referred to a Columbus specialist who arranged to see Paula. He recommended surgery and set a date for this at Mt. Carmel Hospital. While all expenses for surgery were paid by state funds, it was the Trouble Clinic that paved the way.

Paula is now enrolled in kindergarten at the East School. To give her an additional boost on her start in life, she was outfitted with some bright new frocks and other clothing by the Trouble Clinic.

While visiting with her father recently, she expressed her gratitude for her eye correction by saying, "Look, Daddy, at my straight eyes."

FIVE-YEAR-OLD PAULA BEDSON is looking "straight" at the cameraman for this picture. She couldn't have done this at Christmas time, because she had a strabismus then. This is a condition where both eyes are turned inward in a severely crossed manner. Two prouder persons could not be found to have their picture taken with Paula than the two in this picture, her father, Millard Bedson, and Miss Margaret Loris, president of the Galion Trouble Clinic, whose agency paved the way for surgery that corrected the condition.

Former Circleville Mayor Is Indicted

CIRCLEVILLE, Ohio (AP)—Former Mayor Edward Amey of Circleville was indicted by the Pickaway County Grand Jury yesterday on five counts of embezzlement. He is to be arraigned Friday before Common Pleas Judge William D. Radcliff.

The charges of embezzlement were filed against the former mayor after a recent state examiner's report on an investigation of some $5,000 shortages in mayor's court funds. The report covered Amey's two-year administration which ended more than a year ago. Circleville now has a municipal court.

New Floor Care Ends Waxing

One of the most difficult jobs of housekeeping is to keep linoleum and asphalt tile floors waxed and gleaming. Now, thanks to Glaxo, it is no longer necessary to wax and scrub. All you do is apply Glaxo with a brush about twice a year. It maintains a high lustre, non slip coating that seals out dirt. Glaxo dries in one hour and is water clear. It's cheaper than wax in the long run, besides saving a terrific amount of work, plus truly a beautiful floor Glaxo is available at Uhler's—3rd Floor.

Mental Correction Needs

Governor Lausche's request to the Ohio General Assembly for a 140-million - dollar state hospital improvement program has raised in some people's minds the question of whether we are spending too much for bricks and too little for brains.

Dr. John D. Porterfield, director of the Department of Mental Hygiene and Correction, thinks not. Writing in the department's magazine, Motive, he says:

"Ohio has reached the stage where it is not a question of "or," but the burden of "and." He points out that the department's first concern has been for brains as evidenced by its operating budget request.

And Dr. Porterfield's position seems to be borne out by a recent announcement of the department's bureau of research and statistics which disclosed that the number of mental patients in state-supported hospitals has soared to an all-time high of 36,005.

The bureau reported a total of 27,151 mentally ill patients, 7,299 mentally deficient and 1,555 epileptics.

But the crux of the problem is this:

Rated capacity of the state's hospitals is 23,640.

All state hospital facilities are now being examined by members of the Finance Committee of the Ohio Senate. They are trying to determine whether the governor's request for improvements is justified.

While additional hospital space undoubtedly is needed, state mental hygiene authorities have emphasized that buildings must be maintained and facilities kept in a decent state of usefulness if the brains are to be effective in providing successful treatment.

Dr. Porterfield points out that practically all of the department's building program constitutes replacement and renovation. The only expansion called for is primarily more room between beds, more room in which to provide decent treatment and successful rehabilitation for the present institutional population.

This together with moderate expansion of actual capacity in the field of adult corrections and care of the mentally retarded and a diversification of facilities in the juvenile field makes up the large backlog of physical need which is the product of decades of too little and too late.

A Lesson in Psychology

The Army professes to be puzzled over the reaction of its soldiers who participated in an atomic test.

Very few of them, a study indicates, worried about taking part in the test, but as time went on their sensitivities caught up with them and they became more disturbed.

The Army's study was prepared after exercise Desert Rock in Nevada in November of 1951. Troops attacked into an A-bomb area for the first time.

Immediately after the maneuver, 81 per cent of the troops were "not worried at all" about the blast, the heat or the radiation. Three weeks later, only 56 per cent were still undisturbed.

This little problem in psychology shouldn't be too difficult for the Army to figure out.

The Desert Rock test being the first, the Army frankly was hunting for information — reaction, timing, coordination.

There wasn't any good reason for the troops to worry before they knew exactly what they were supposed to worry about. The Army certainly wasn't going to expose them to annihilation or even slow death.

But as the soldiers experienced their first brush with the A-bomb and information was compiled on the efficacy of using the two in some sort of coordinated attack, the picture became clearer and the fears just a little deeper.

And since fighting men can read, too, it's our guess that after they saw stories about the dangers of radiation and fall-out and the capacity of high-velocity winds to carry atomic particles great distances, they began to wonder just how safe such an operation really is.

The study, of course, showed conclusively that fears are unwarranted, but if such a survey were made today, the odds are that if there is any concern, time would not be a factor.

The G.I. now knows the score.

Unraveling Red Tape

The Hoover Commission, headed by the former president, has aimed a blow at government red tape — and not a minute too soon.

It has asked President Eisenhower to order cuts in paper work now estimated to cost four billion dollars a year.

The commission believes that initial savings could run as high as 255 million dollars.

Proposals include simplification of all government forms and elimination of nonessential reports and unnecessary copies of letters.

Anyone who has had more than casual dealings with the government understands what the Hoover Commission is talking about.

Red tape has not only been the great destroyer of government efficiency, it has been the chief single contributor to the mental anguish and confusion of the citizen who tries to do business with Washington.

What the commission is proposing, in effect, is a completely new start with a responsible authority established to deal with the whole problem.

It will be resisted, to be sure. But we hope not in quadruplicate.

Soviet Sensitivity

By David Lawrence

Red Leaders Apprehensive of American Opinion

When William Randolph Hearst Jr, editor of the Hearst group of newspapers, spoke before a big audience of news writers at the National Press Club about his recent visit to Soviet Russia, the most important single question asked him could not be answered.

It was why the Communists chose to permit the head of a newspaper group — known for its perennial antagonism to everything communistic — to visit in Moscow and interview the highest officials of the Soviet government on current problems. For several years many American publications have had on file requests to allow correspondents to go to Moscow but less than a half-dozen press representatives are on duty there regularly.

Hearst and his editorial associates who accompanied him hazarded guesses as to what the Soviets had in mind, but none could be sure. The significant fact remains that the Moscow government did permit interviews which lasted for several hours and in which almost every phase of the present world situation was discussed.

Fortunately, Kingsbury Smith, European manager of the International News Service, which is owned by the Hearst interests, is a shorthand reporter and took down what was said. Later on, the Soviet government, which was given this stenographic record, made public an abbreviated version and gave it to the Soviet Press.

-:-

IT WAS AN ACCURATE transcript and, much to the surprise of everyone in the Hearst party, the criticisms which had been voiced by Hearst and his associates about Russia were not entirely excluded from print.

Could it be that the Soviet government, knowing that a change in the premiership was about to occur, took advantage of the presence of Hearst to soften the adverse impact that it was feared might ensue around the world when the news of Malenkov's downfall was announced?

Certainly Hearst didn't make the initiative in applying for a visa and was surprised when it was granted. Also the timing for the visit was that of Hearst, who need not have come at the historic moment.

So, all in all, it appears that the Soviet Government is sensitive to world opinion. Hearst hazarded the guess that the Soviet leaders were somewhat disturbed by the impressions in America of purposeful belligerency and that it was deemed desirable to ameliorate the effects of some of the speeches by the leaders made for consumption inside Soviet Russia.

-:-

CURIOUSLY ENOUGH, the most favorable impression that Hearst and his associates formed about the Soviet rulers was centered in the personality of Marshal Zhukov, President Eisenhower's friend of war days.

"Of all the four top men, with whom we talked, Marshal Zhukov was the most pleasant," Hearst said. "He received us alone except for our interpreter guide. He greeted us warmly when we arrived in his office at the National Defense ministry. Here was the old soldier who had been on such friendly terms with Gen. Eisenhower in the closing period of the European war . . .

"This husky, forthright military man commanded the defense of Moscow, prepared the Soviet stand at Stalingrad, and led the Red Army to victory against Germany. He gave me the impression of being sincere in his expressed hope for improved relations with the United States and the warm sentiments he voiced about President Eisenhower.

"I felt almost a sense of relief later when I heard that he had been moved up to the post of defense minister. Not because he would hesitate to do everything in his power to defeat us in the event of war between our two countries, but because I believe that soldiers like the President and Zhukov know all too well the horrors of war and want to avoid it. The presence of Zhukov in the high councils of The Soviet regime might be a conservative, perhaps even restraining influence on recklessness."

-:-

HEARST CAME AWAY convinced that American policy is right and that, in the absence of a clear-cut manifestation of peaceful purposes on which the world can rely, there is no other course but to build up the necessary armament to deter a Soviet attack.

But it is interesting to note that the Soviet rulers are aware of the apprehensions voiced in America. Still they do not seem to realize, on the other hand, that it is their unrelenting quest for world domination by Communist imperialism which constitutes a threat the Western World cannot ignore.

Highly Secret Oil Report

By Raymond Moley

In a previous article I commented on the publication from Geneva of a story in the Wall Street Journal concerning a report on "The Price of Oil in Western Europe." This report, which had some unflattering animadversions concerning the five American companies which operate in the Middle East, is in fact a covert move toward restrictive price fixing by international authority. I outlined the history of Gunnar Myrdal, the executive secretary of the Economic Commission for Eastern Europe, which got up the report in question.

The report was quite fully described in the Wall Street Journal but since reading that item I have verified my impressions by a round-about means of getting at the document itself.

It describes what it alleges is the very low cost of oil to the companies and contrasts that with the high prices charged consumers in Europe. One of the American oil companies involved, the Standard of New Jersey, states that "the net received by the oil companies from Middle East crudes has been overstated in the paper (presumably the report) by exactly 100 per cent."

The report, no doubt for propaganda purposes, sets forth the anti-trust actions instituted against the American companies and also draws upon a report by the Federal Trade Commission, in 1952, which was highly uncomplimentary to the American companies. This sort of thing of course makes excellent anti - American propaganda in Europe, notably behind the Iron Curtain. Many European papers which seem to have preference over our own news services in getting access to such reports have had a field day at the expense of our companies.

I have found that the document is marked "restricted" and so my curiosity was directed at the question why the U.N. should have any secrets at all. It need not worry about security, for it presumably has no enemies. It has no military secrets because it has no army.

Surely, I felt, an American taxpayer who helps to support the U.N. and its affiliate that got out and printed this report should certainly have access to what seems to be common property in Europe.

So I had someone call the United Nations to request as an American citizen and taxpayer a copy of the report. He first asked for the Public Relations office. Somebody there said that he knew nothing of the report but to ask for the documents office. The documents office finding that the question was only from an American citizen said that it had no right to give anything except to a member of a national delegation.

It referred the questioner to the American mission. That mission explained that since the document was labeled "restricted" it could go only "to persons connected with the subject." The questioner asked, "An American oil company for instance?" The answer was: "Oh, no, only somebody with the United Nations." That was the end of the quest.

Soviet Russia or Poland could get this document smearing American companies but not a plain American citizen.

This is an item of information for Americans visiting New York who gaze in admiration at what American taxpayers have wrought upon land given by Mr. Rockefeller with money derived presumably from oil.

A Question Minus Recitation

By MARK DANA

Like other professional groups, teachers argue about minor techniques and alternately soar into nebulous abstractions when they get together in conventions, although outsiders get the impression that all the pedagogical associations could be laid end to end—and then covered with flowers and soft earth—without harming very much the unceasing problem of good teachers versus bad teachers.

At least this lay concept was voiced—by a teacher himself—the other day in Chicago at the assembly of the American Association of Colleges for Teacher Education. Dean Lawrence D. Haskew of the University of Texas College of Education ribbed his associate teachers of teachers, saying they worry frightfully about teaching methods, forms, techniques, reports, intelligence measurements, higher degrees, and plain patter when they should be concentrating on (1) finding young people who are interested in teaching and by temperament of basic teaching caliber, then (2) helping them to become teachers instead of psychologists, paper jugglers and teacher - association politicians.

Press dispatches say the officials of the teacher-training colleges applauded the lampooning—yet it's likely that normal schools will continue turning out a fair ratio of their graduating classes who are experts in pleasant community relations, can make a swell talk before a PTA and can operate a movie projector adeptly, without being able in a classroom to drill knowledge into the skulls of small fry or make them ardent for further stuffing. Just how good is a good teacher?

Maybe Dean Haskew exaggerated the whole situation to make a point (perhaps out of whole cloth), as do many platform orators becoming reckless in forensic frenzy, and as reminded at the outset generalized talk is inevitable at any convention. Assembled ditch-diggers soar similarly.

Population Hits New High

By THOMAS R. HENRY

The natural increase in this country's population probably was greater last year than ever before.

There appears to have been a new high in the birth rate and a new low in the death rate.

This is the conclusion of Public Health Service statisticians from study of the statistics of the first 10 months of 1954. Reports for the last two months are not yet available, but seem unlikely to disturb the general conclusion.

Marriages, however, continue to decline in the U.S. This has been almost continuous since the wartime marriage boom ended in 1946. Divorces, which decreased sharply during the first postwar years, are on the increase.

During the first 10 months last year, the reports show, 3,334,000 births were registered, exceeding the number during the same period of 1955 by 2.5 per cent. If this lead was maintained for the rest of the year about 4 million births will be registered.

In each year since the war's end births have been at a considerably higher level than during or immediately before the war. The total climbed from 2,858,000 in 1945 to 3,817,000 in 1947. There was a slight dip during the next three years but the increase started again in 1951 and has continued to date.

The birth rate per 1,000 population in 1953 was 25.1. The indications are that it will be at least 25.2 for last year.

Much of the increase in births, according to the report, can be attributed to a continuing rise in three- four- and five-children families. It is not expected that the 1954 figures will show any increase in the number of first births, because of the few marriages.

The phenomenon of an increasing birth rate has been observed over most of the world and has caused both satisfaction and alarm. It has been held that great population increases nearly always end in great catastrophes, such as major wars or epidemics. On the other hand, a growing population — and hence growing manpower — usually is considered encouraging by nations.

The seasonal variation in the birth rate during 1953 and the first 10 months of 1954 was quite marked and seemed to follow a pattern which has held up since the war. There was a minor peak during the first three months followed by a sharp drop in April. Then there was another rise to a high in August, followed by a decline to the end of the year.

For the last five years the death rate has remained nearly stationary in the United States — between 9.6 and 9.7 per 1,000. It is expected, however, that these figures will be bettered for last year. For the period from January through October the rate was only 9.1 compared to a previous low of 9.6. Unless mortality should prove to have been exceptionally high for November and December, it is likely that the rate for the year will fall under 9.3.

The marriage rate dropped from 9.7 per 1,000 in 1953 to 9.2 for the first 10 months of 1954. This rate probably was maintained for the year. The decline is attributed to the low marriage rate in the depression years so that there are now fewer of marriageable age.

Quite incomplete reports indicate that during the year the divorce rate dropped about 4 per cent. The rate reached an all-time high in 1946 with 4.3 per thousand of the entire population. This was due largely to the break-up of hasty war marriages.

Marion County History Brevities

By EDNA S. DUTTON

Prowess with the gun was an enviable achievement with the early settlers of the county.

Jacob Milisor who settled here in 1819 was one of the great hunters of his time. He was known to have brought home five to six deer a day and in his lifetime killed no less than 500 deer.

As a laborer he reaped with a sickle some 40 dozen bundles of wheat in a day or mowed three acres of grass in the same length of time. He spent seven years on the Ohio canal as a stone-cutter.

Egypt Makes Movies

CAIRO (AP)—This city's steadily-expanding cinema industry is giving Cairo the name "Hollywood of the Middle East."

Eighty per cent of films shown in Egypt are locally made. Egyptian films dominate the Arabic-language movie markets of Turkey, Iran, and Indonesia and Kenya.

Eight movie studios produce 70 films yearly and may turn out 85 in 1955.

American film companies also are active. Among others, "The Valley of the Kings," "Sinuhe the Egyptian," and "Joseph in Egypt" have been made in the past year. "The Ten Commandments" is in production.

Truck Wreck Kills 1, Injures 2 in Cleveland

CLEVELAND (AP) — A truck whose driver apparently went to sleep, crashed into an automobile on busy Detroit Avenue today and lunged into the corner of an apartment building at West 85th St The truck driver was killed and two other men were injured.

The driver was identified as Loren James Dates, 42, of Erie Pa., whose vehicle was owned by the Daniels Trucking Co of Warren Ohio The truck was hauling chocolates from Fulton, N. Y., to Illinois.

Bohgan Zachrako, 29 and Harry Watel, 51, both of Cleveland and passengers in the car that was hit, were taken to St John's Hospital. Extent of their injuries was not immediately determined

One occupant of the apartment building, 70-year - old Mrs. John Bunt, was taken to Lakewood Hospital, suffering from shock.

Firemen evacuated 45 tenants from the building, fearing there might be an explosion from gas escaping from broken mains or from gasoline from the wrecked truck.

Police Inspector Patrick Lynch said the truck hit the car when the car stopped for a traffic light The big vehicle then plunged into a basement suite occupied by a janitress, Mrs. Mildred Piazza, and her four children, ranging in age from 1 to 8. The upper part of the cab sliced through the first floor living room of another apartment occupied by Mrs. Thomas Whyte

In the Piazza apartment, the two-ear-old Bobby Piazza was sleeping, showering him with debris but not seriously hurting him

AP TO HEAR IKE

WASHINGTON (AP) — President Eisenhower has tentatively accepted an invitation to address the annual luncheon meeting of the Associated Press in New York April 25. The White House announced this yesterday.

Finland sends its first starlet to Hollywood, it says here, although we had always thought Esther Williams had Finns. Or Gills, at least.

-:- Church Activities -:-

Family night was observed jointly by the Woman's Association and the Men's Council of Forest Lawn Presbyterian Church with a special meeting and program Monday night in the church community house. About 50 persons were present.

Mrs. Dale Weston, president of the Woman's Association, presided, and devotions were conducted by Mr. and Mrs. Ethan Temple. For the program, a motion picture, "The City Story," was shown. Rev. F. E. Kline, pastor of the church, closed the meeting with prayer.

—:—

Arrangements have been made by the Luther League of the rural St. Paul's Lutheran Church to present special music for the Lenten services of the church with the president, Dolores Hough, in charge. Another project of the members was the placing in the hymnals of a special hymn for observance of the 25th anniversary of the American Lutheran Church which is being marked this year.

At a recent meeting of the young people a list of "project promoters" was announced including Joan Laucher, spiritual growth; Marilyn Mack, literature; Jack Fetter, service; Jim Seas, Bible Camp; Pete Wade, recreation; Bill Hough, choral union. The pastor, Rev. Wilbur R. Budke, and Mrs. Budke entertained the members at the parsonage and Bible study presented by Iva Fetter served as an introduction to the Lenten season. Annual summer Luther League convention was listed for August at Texas A and M College on the theme God's Love—My Life." The next meeting will be in the form of a chili supper with Iva and Jack Fetter in charge.

—:—

A father and son banquet was attended by 80 men and boys of Salem Evangelical and Reformed Church Friday night at the YMCA. Welcome to fathers was given by Roger Knachel and Elmer Woltmann gave the welcome to the sons. Each father introduced himself and his son. Fun singing was led by Marvin Ludwig who had charge of the program. Special music was by a girls' sextet from Harding High School, and sleight of hand and magic stunts were by Steve Allen.

Leo Keller was chairman and his committee for the event included William Lloyd, Clifford McCullough, George Dutt and Mr. Woltmann. This was the second general activity of the group of men in Salem Church who are interested in serving the church in specific ways. Rev. L. Harrison Ludwig, the pastor, reported. First event was a dinner at the church in January.

—:—

Continuing a monthly project of the young people at the LaRue Baptist Church, the group had charge of the evening church service Sunday. A welcome was by Bonnie Shaffer followed by prayer by Pegg Saiter. Rev. John Williams, the pastor, led a song period.

Scripture was read by Andy Tate and a quartet composed of Julia Oberdier, Betty Huntley, Andy Tate and Gary Wynn sang. Poems were presented by Peggy Saiter. For a "sword drill" using the Bible, Ross Oberdier was leader. Julia Oberdier and Bett Huntley sang and Rev. Williams presented a talk on faith.

The dessert was served by Misses Florence Matthews and Elizabeth Pace and Mrs. Grace McDougal. Devotions were by Mrs. Isabelle Goyer. Painting of Primary Department chairs was arranged by the Christian social relations and local church activities committee headed by Miss Clara Alice Wilson.

Club Study Group Elects Its Officers

Miss Wanda McMahan was elected leader of the Marion Lecture-Recital Study Group for the next year at a meeting of the group Monday evening with Mrs. Carter Patton of 322 Edgewood Dr. She has been fourth vice president of the Lecture-Recital Club during the past year.

Elected to assist her were Mrs. H. G. Williams, assistant leader; Miss Harriet Goodwin, secretary; Mrs. Verna Laucher, assistant secretary.

For the program, Mrs. William Thomas presented a paper on "Hillbilly Music Leaves the Hills." She explained that now it is not only the country folk who love hillbilly music, adding that it has been proven that practically every large city in America has filled large concert halls with audiences to hear that kind of music. One reason she gave for this trend in music is the migration of the young mountain boys to other parts of the country through their being called into service with the armed forces.

Records of country style hillbilly music were played, some by such composers as Lester Flat, Earl Scroggs and Hank Williams.

Also for the program, Mrs. George Griffiths sang "Dear Hearts and Gentle People" by Sammy Fain and Bob Hilliard, "I'm Walking Behind You" by Billy Reid, and "Tennessee Waltz" by Stewart and King.

Mrs. Angelo Doria was chairman of the hostess committee for the evening, assisted by Mrs. Paul Goebel, Mrs. Verna Laucher, Mrs. A. G. Birch, Mrs. Lewis Wills, Miss Joy Miller and Miss Arlene Houpt. Mrs. Griffiths and Miss McMahan served at a table decorated with George Washington motifs.

Hostess for the next meeting, April 25, will be Mrs. William Ackerman of Bellefontaine Ave.

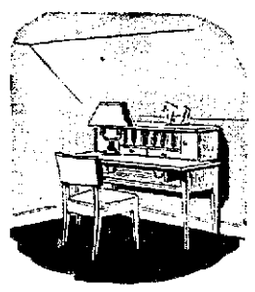
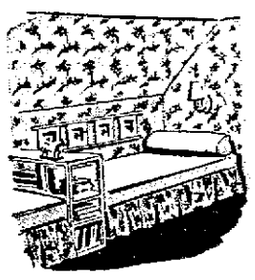
NEED AN EXTRA ROOM?

Family getting larger? Need more space? Perhaps, like many folks, you are letting precious space go to waste. That space beneath a slanting ceiling in the upstairs, for instance. Don't neglect this area, and think that because ceiling is low it is not usable, except for a table and chair or a chest.





Make An Asset Of Slanting Ceiling . . .

. . . . by wallpapering it to match walls underneath it. Then, transform the whole end of the room into an attractive sleeping alcove by placing twin beds (box springs and mattresses) end to end along the wall. If space permits, let open shelves double for night stand. Or use wall - hung reading lamps.

For you, who love nice things, we have garnered a nice assortment of beautifully styled, well built furnishings that will be at home in any type room. Do come in and browse around. Let us help you make unhurried selections.

Langer To Aid Ike, Democrats

North Dakota Senator Likely To Split Ticket

WASHINGTON (AP)—Sen Langer (R ND) said today 1956 might find him campaigning for President Eisenhower on a national level and for a Democratic state ticket in North Dakota

Langer told members of the Nonpartisan League in North Dakota last week that wherever the league decides to go in support of state candidates he will go with it—including the Democratic column

This caused some Republican colleagues to speculate he might leave their ranks—as Sen Morse (D Ore) already has done—and thus make more difficult their fight to regain control of the Senate

Langer who frequently votes with Senate Democrats and against administration proposals said in an interview he had no such thought in mind

'I will be campaigning for Eisenhower in 1956 if he is the nominee Langer said I have no intention of changing my status as a Republican and I will support my party's nominee on the national level'

Langer said he had no way of knowing whether Eisenhower might be a candidate again

Councilmen in Galion Approve 3 Resolutions, Discuss Revenue

GALION — City Council Tuesday night adopted three resolutions including one to grant an easement to the Ohio Edison Co to bring its lines across city owned lands and continued discussion of legislature governing new sub divisions

In a caucus of Council with Mayor Francis C Schalip following the meeting councilmen heard ways and means of securing additional revenue for city expenditures and also discussed plans to proceed with further expansion of the electric power distribution system in Galion

Resolutions adopted by Council included one to grant an easement to the Ohio Edison Co with rights and privileges for lines for the transmission and distribution of electric current across the city owned lands to the new sub station which has been constructed for electrical power distribution through city lines

Repay Commissioners

A second resolution authorizes repayment to the Crawford County commissioners the money loaned the city for payment of its share of expense of construction of a bridge on the N State Road in the city The bridge was built in conjunction with the state of Ohio's department of highways, and in conjunction with the Crawford County commissioners

The Pfeifer sub division was given city approval in adoption of the third resolution

A letter from the Department of Health of the State of Ohio approved construction of a sanitary sewer sytem for the 13th district in Galion according to plans proposed by the city engineer, Kenneth Shaffer subject to a condition that existing regulations governing the use of sewers and prohibiting discharge of roof drainage or other storm water to sanitary sewers be enforced

Council received a complaint of unnecessary noise in the second block on South St from 10 p m to 3 a m caused by automobile drivers racing the motors

Ask To Rescind Rule

In a report by Councilman J W Carls he said that recommendation was made that Ordinance 2936 be rescinded and that the amendment to this ordinance be dropped The ordinance provides minimum requirements of utilities installations before a new city addition will be accepted by the city The amending ordinance would provide that in certain instances the city may receive performance bonds cash deposits or both covering the cost of utilities installments (construction of storm and sanitary sewers on the platted area of streets avenues and alleys) Carls said that a new standard for sub-divisions is recommended

During the caucus Councilmen heard Mayor Schalip read a letter from the Ohio Municipal League on how other cities are raising money to meet expenses Suggestions of a real estate tax levy and an admissions tax were made

Councilmen also discussed with Carl Campbell of Emery Markel and Campbell consulting engineers of Toledo the expansion of the power distribution system A portion of this program has been completed and consideration is being made to proceed with another portion of the program Construction of one sub station to bring in power from the Ohio Edison Co has been completed The second of three stations is planned

Fugitive Takes Marshal's Gun Near Chauncey

ATHENS, Ohio (AP)—Marshal DeWitt Walker of nearby Chauncey was robbed of his gun and car last night, the state highway patrol reported.

The patrol began a search for a man identified as Frank Oiler, 32, who the patrol said was a parole violator from West Virginia. The patrol said Oiler was armed and may be dangerous.

Shortly before midnight, the patrol reported, the marshal stopped a car driven by Oiler and asked to see ownership papers

Oiler told the marshal the papers were in a house "up the road" and the marshal ordered Oiler into the police car to drive up to the house for a check, according to the patrol

Once in the car, the patrol said Oiler forced the marshal out at gunpoint escaping with the car after relieving the marshal of his gun

About three hours later the marshal's car was found abandoned at Jacksonville. Officers found no trace of Oiler.

Board Fires Superintendent, 114 School Employes Strike

IRVING, Tex. (AP)—A meeting of striking school personnel, considering a School Board ultimatum to return to their jobs today or be replaced, broke up with no announcement of a decision

The 114 school employes, who struck because the School Board refused to reinstate dismissed former Supt. John L Beard, were told by the board yesterday to "return to work Wednesday or be replaced"

The board also fired nine principals and others in executive jobs after a day in which more than 100 citizen volunteers substituted as teachers, bus drivers and custodians

Police reinforced by county officers, watched the schools closely to prevent an outbreak of violence feared since Monday night's School Board meeting That meeting ended in hysterical shouting and name-calling and only the presence of an augmented police force was believed to have prevented fisticuffs

Dr Beard was fired as superintendent of schools 11 days ago and the School Board gave no explanation Board President Charles E Young said the board did not intend to make an explanation before "an emotional audience" Dr Beard, said Young could take his case to the proper court or to the state commissioner of education if he cared to protest

Irving is a community of about 25 000 persons that has had a tenfold growth in the postwar years It is in West Dallas County. Many of its citizens work in Dallas and Fort Worth industries.

Hogs Valuable To Americans, Experts Assert

Almost two-thirds of the nation's farms now depend on hogs for part of their income, according to figures cited today by the American Foundation for Animal Health.

In the north-central states, almost three-fourths of the farms raise some hogs, while in Iowa the percentage climbs to 85 per cent, according to the Foundation.

Between 10 and 12 per cent of the national farm income comes from the sale of swine, the study continues. More than 86 million hogs were slaughtered during 1953 making an average of 67 to 70 pounds of pork for each person in the nation. Pork also provided 50 per cent of all meat consumed in the country, and swine are the greatest single outlet for farm raised grains.

It was also noted by the Foundation that during the past five years a larger percentage of hogs was vaccinated against hog cholera than in any previous year. In 1953, more than 55 per cent of the swine in the nation were vaccinated, the Foundation reports.

TOMBSTONE BACK

WAYNESBURG, Pa. (AP)—Ten days ago someone stole a 400-pound tombstone from a monument works. Police report it has been returned, as mysteriously as it was taken.

4-H Club Members Will Be Honored March 5 to 12

NEXT WEEK, March 5 to 12, has been set aside to honor 4-H Clubs throughout the country as National 4-H Week. During the week tribute will be paid to the institutions which help train young boys and girls along paths which will lead them to better careers as adult farmers and farm wives.

Here in Marion County there are 39 4-H Clubs which last year had a membership of about 700 boys and girls. Typical of the energetic clubs in the area is the club at Green Camp which is named the Willing Workers.

With Mr. and Mrs. Arthur Bish as advisers, the club last year was one of eight in the county in which all members completed the projects which they started earlier in the year.

Bish's philosophy which provides the members with their incentive is "let them do it themselves." He feels that in this manner, the members will take the responsibility and do a more competent job.

The members make their own rules at the beginning of each year when they elect officers. Through the year, they enforce the rules and take action when a member gets out of line.

During the summer months when preparations are being made for the County Fair, Mr. and Mrs. Bish receive help from Richard Porter of near Green Camp. Bish says his club tries to make a showing in all possible sections of the fair. Only by keeping active can the club succeed, he says.

That policy paid off last year, as the Willing Workers took first place ribbons for the booth contest and the 4-H float contest. Individual members also gathered in about $160 in cash prizes in the various events.

—:—

MR. AND MRS. BISH realize that some of the projects are difficult for the younger members of the club and look for help from the parents for those who are 10 to 12 years old. After that, though, the youngsters are expected to do their own work.

Among the projects which the club undertoos last year were first aid study including the building of a first aid kit; nature study including building of bird houses, insect collecting and rock collecting; steer projects; sheep projects; entrance in the chicken of tomorrow contest sponsored by a local hatchery, and other similar agricultural activities.

The club usually meets every other week at the Green Camp School. Once a year a picnic is held and near the end of the summer a wiener roast is held.

This year, one of the junior leaders in the club, Becky Converse, was chosen one of the two Marion Conty recipients of the Ohio Junior Leader Honor Award. The other 4-H junior leader winner was Richard Cix of Prospect.

Both Mr. and Mrs. Bish are high in their praise of 4-H work and call it "a wonderful thing" for the youths who participate in it.

—:—

THEY ALSO EXPRESSED the opinion that the awards which have been established lately are a good incentive for the members. With something to work for such as the Ohio Junior Leader Honor Award, as well as other local, state and national awards, the youths put forth more effort.

Bish, who has three children of his own in the club, has been adviser of the group for the last two years. He took the job at the request of Ellwood Parrott, county agent, after the former adviser, Vern Beaver, was forced to give up the job because of other duties.

—:—

WITH HIS WIFE helping occasionally, Bish managed to get the club moving smoothly again and then named his wife as co-adviser.

The Bish family lives at the edge of Marion at the Sawyer Sanitarium where Bish is employed as farm manager. Besides the three children at the Green Camp School, they also have another daughter of pre-school age at home.

Open to youths from 10 to 21, the 4-H clubs are conducted to help young people become more useful citizens and better skilled in the fields of agriculture and homemaking.

The H's of the 4-H stand for head, heart, hand and health. Motto of the clubs is "To Make the Best Better."

As part of 4-H week, several meetings are planned to get the new season under way. On March 7, advisers from the county will attend the district advisers training meeting to be held at Kenton.

March 9 will be the start of the 1955 tractor maintenance program with a meeting of persons interested in that project at the YMCA at 8 p.m.

On March 12, a party and social get-together for all 4-H advisers and their wives and husbands in the county will be held at the West Town Branch of National City Bank. Purpose of that gathering is to give the advisers an opportunity to meet each other and exchange ideas on their work.

NATIONAL 4-H CLUB Week will be celebrated March 5 to 12. Among the 39 clubs here in Marion County promoting the welfare of the future citizens of the rural sections of the country is the Green Camp Willing Workers.

UPPER: Arthur Bish, co-adviser for the club, starts to write the 4-H pledge for Mrs. Bish, the other co-adviser, (extreme left) and officers of the club. Officers shown, left to right, are: Richard Bentley, recreation leader; John Bish, reporter; Charles Dilsaver, vice president; Harold Wasserbeck, president; Carol Wasserbeck, recreational leader; Sandy Converse, treasurer, and Becky Converse, secretary.

LOWER: Wasserbeck and Mr. and Mrs. Bish check the progress report for the club for the last year, when all members completed their projects.

Dairymen Reduce Cattle by 300,000

COLUMBUS — Ohio farmers culled 300,000 unprofitable dairy cows last year to lower milk cow numbers three per cent, Riley Dougan, Ohio State University extension economist, said today. They culled 28 cows for each 100 cows in their herds while raising only 25 heifers per 100 cows to replace those culled.

Dairymen in other parts of the country aren't culling as fast as Buckeye dairymen, Dougan said. U. S. dairymen culled 25½ cows from each 100 cows in their herds while raising 24 replacement heifers per 100 cows. Culling rate in the nation, howeevr, was 3½ per cent higher in 1954 than in 1953 when only 22 cows per 100 were culled.

Dougan said increased culling probably will maintain milk production at 1954 levels. He urged farmers to continue culling unprofitable cows.

ASKS NEW TRIAL

CINCINNATI (AP)—Tom McCarthy of radio station WKRC has asked common pleas court for a new trial in his million dollar libel suit against the Cincinnati Enquirer. A jury decided two weeks ago McCarthy was entitled to no libel damages. McCarthy claims the verdict was not backed up by evidence and was against law. Judge Joseph Woeste told the jurors the Enquirer's remarks were libelous in themselves but could be justified if the jurors believed they were fair comment and criticism.

MARKET RECORDS PROVE it pays to start pigs fast. And a fast start means hitting the early market with finished hogs—when prices are usually best.

NEW BABY PIG CHOW—Purina's new taste discovery—is so palatable that pigs take to it extra early. Contains Pura-Fat (selected fats) and Pura-Sweet (selected sweeteners). That's why pigs love it. Feed 1 bag (50 lbs.) per litter then switch to PURINA PIG STARTENA—the starter that helped more than 5,000,000 pigs make whopping weights at weaning last year.

Put these Fast Start Twins to work in your feedlot. The results will amaze you. Ask for Purina Baby Pig Chow and Pig Startena at Your Store with the Checkerboard Sign.

WASHINGTON (AP)—Government scientists hope to develop a menagerie of germ-free animals to help in the study of a variety of health problems ranging from polio to tooth decay.

The National Institutes of Health of the U. S. Public Health Service is seeking congressional approval to build a special laboratory for rearing generations of chickens, guinea pigs and possibly other animals under absolutely sterile conditions.

The animals would be used to test the effects of germs and other substances purposely introduced into their bodies. Since the animals would be free of infections at the start, scientists would expect to get a better idea of the effects of the introduced substances.

Efforts to raise germ-free laboratory animals began as far back as 1897, but NIH scientists say the greatest advances made in the field, in the United States at least, have resulted from a project at Notre Dame University, headed by Dr. James A. Reyniers.

—:—

THE NOTRE DAME group, working since 1928, has developed special apparatus and procedures.

Animals are born in a germ-free environment. From that time on, the air they breathe, the food they eat and the quarters in which they live are kept sterile.

The government scientists were inspired to seek a laboratory of their own by the success of experiments they began two years ago as guest researchers at Notre Dame.

These experiments were concerned with amoebic dysentery; which is estimated to infect more than 11 million persons in the United States. Most of these persons are not actually sick, but sometimes patients with mild or apparently cured infections may suddenly develop liver complaints and dysentery. Individuals who never show symptoms may be carriers of amoeba parasite.

The aim of the NIH-Notre Dame study was to determine whether, in the experimental animal at least, the presence of other germs in the body might have an influence on amoebic dysentery.

—:—

TWO GROUPS of guinea pigs were used in the test: (1) germ-free animals and (2) conventional animals, harboring common intestinal bacteria.

After inoculation with parasites, none of the germ-free animals developed this dysentery, whereas 34 of the 37 conventional animals came down with the disease.

The NIH researchers say the results point to the potential importance of germ-free investigations in a number of research areas.

In polio research such animals would be useful in investigating multiplication of the polio virus in the intestinal tract and the influence of bacteria on its multiplication and excretion.

In studies of tooth decay and diseases of the gums, scientists might be able to better understand the precise role played by germs.

NIH scientists have previously shown that it's possible to produce these conditions in conventional animals by variation of diet. But it has never been possible completely to separate germ-caused dental troubles from those stemming from diet, heredity and the endocrine gland system.

Ohio Power Co. May Recover $5,885,388

WASHINGTON (AP) — The U.S. Court of Claims yesterday ruled Ohio Power Co. is entitled to recover a possible $5,885,388 from the government.

The action stems from a World War II ruling which granted the firm permission to amortize 35 per cent of the cost of construction of a new plant and transmission line, rather than the full amount the company claimed it was entitled to write off in taxes.

The court, in a 3-1 decision, sided with the company, but said entry of judgment would be suspended until the parties reach a stipulation showing the amount due.

Tips on New-Born Livestock Offered

A series of pig calf, and lamb-saving pointers, to help farmers bring through a larger percentage of the new year s crop of infant animals was offered this month by authorities of the American Foundation for Animal Health

"Be sure that mother animals get top notch rations so they can nurture strong, healthy young' the Foundation's pointers suggest 'Mothers-to-be should get plenty of suitable proteins, vitamins, minerals and good legume hay

Keep brood animals comfortable and clean and in properly-ventilated quarters

"Be sure the young are born on clean pasture, or in clean, dry well-bedded quarters, away from drafts.

"Near the end of the gestation period, be on hand so that is assistance is needed in delivery, a veterinarian can be called to disinfect the navels of the young

"Check up to see that the newborn nurse properly. Calves should get the cow's first milk Baby pigs should have access to clean sod or an iron preparation which will prevent anemia

"Be alert for signs of scouring . . it may indicate over-feeding, improper feeding, or disease

'Have pigs vaccinated against cholera around weaning time Also, check with your veterinarian as to whether other stock may require vaccination

'If any unexpected sickness should appear, get an expert diagnosis without delay Prompt action in this regard may mean the saving of many valuable animals"

Local Youths Win Leadership Honors

Marion County Boy, Girl Receive State Award For 4-H Activities

Two Marion County 4-H junior leaders have been granted a special honor this week by the state 4-H club officials in Columbus The two are Richard Gix of the Prospect 4-H Club and Becky Converse of the Green Camp Willing Workers

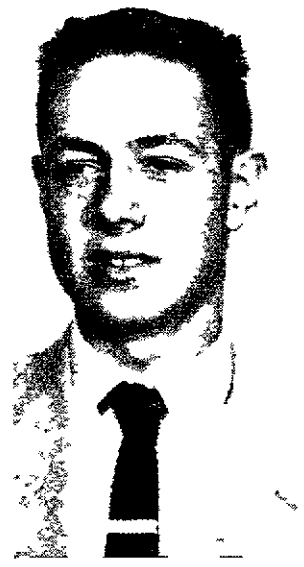
They have been selected to receive the Ohio Junior Leader Honor Award, which is presented each year to outstanding youths in the state who have demonstrated good qualities of leadership in their 4-H activities

They will be presented their awards March 26 at a special gathering of 1952 1953 and 1954 4-H Junior Leadership Award recipients Former Marion County leaders who have been invited to attend a two-day session March 25 and 26 are Loren Fulton Rosemary Mautz Mrs Richard Lawrence Carolyn Hite and Jo Earl

Climax of the gathering will be the presentation of the awards to the 1955 winners At the presentation of the awards, the winners will be given 4-H Club jackets bearing the leader honor award emblem

Richard Gix 17 is the son of Mrs Harold W Gix of near Prospect He lives on a 37 acre farm He has been active in 4-H work for the last six years Now in his junior year at Prospect School he is a member of the basketball team

BECKY CONVERSE



RICHARD GIX

For his projects last year he raised a herd of hogs from nine sows and a boar This year he plans to carry on his junior leadership activities and take part in the 4-H Tractor Maintenance program which begins here later this month

Becky Converse 17 is the daughter of Mr and Mrs Ernest L Converse of near Prospect She is a senior at Green Camp School and is entering her eighth year of 4-H work She lives on a 210 acre livestock farm which specializes in Hereford cattle Ordinarily, she raises a steer each year as one of her club projects She also has had cooking and dressmaking projects

Becky is president of the girls section of the Willing Workers and is secretary of the boy' section which is not limited to boys alone but stresses the agricultural activities such as steer raising The girls section emphasizes the dressmaking and cooking project

One Operation Enough To Fit Field for Plants

Expert Tells Farmers Smoothing Soil While Plowing Reduces Costs

Once over tillage that fits a seed bed in one operation, can save farmers at least $3 per acre in preparing their land for corn

That was the statement of R L Cook head of Michigan State College s agronomy department In the once over operation a light tillage unit such as a plow packer a rotary hoe easy tiller or some other smoothing implement is hitched behind a conventional moldboard plow Cook said

With conventional tillage farmers usually go over their fields after plowing twice with a tandem disk and twice with a spring tooth harrow

Cook reported a saving of '13 horsepower hours per acre with a plow packer attached to the plow This method he said accomplished all the tillage necessary for producing maximum corn yields

Weed control was considerably easier with once over tillage he said Once over tillage not only saves time money and machinery but it saves the soil too Cook reported

Too much tillage and running heavy machinery over the field in seedbed preparation packs down the soil This he said can result in loss of organic matter plugging of soil pores poor aeration inefficient use of plant nutrients and low yields

Cook said corn needs a loose soil 'Tillage is only necessary to make accurate planting possible and to destroy existing vegetation" he added

He listed these advantages of the kind of seedbed which nine years of Michigan tillage research have shown to be ideal for corn 1 Quick uniform germination 2 Less loss of moisture by evaporation 3 Roots penetrate readily into loose soil between rows 4 Rapid water intake 5 Less erosion 6 Less weed competition because the corn grows rapidly the weeds do not have a chance 7 Deeper rooting less damage from summer drought 8 Better aeration and higher moisture holding capacity because loose soil contains more pore space 9 Savings of more than $3 in production costs 10 Higher yields

Oil, Chemical Unions Working for Merger

CLEVELAND (AP)—Delegates to a joint convention of two CIO unions continue today in their efforts to bring about a merger of the oil workers and the gas coke and chemical workers

The 900 delegates representing 220 000 members of the two unions approved 15 amendments to a proposed constitution in sessions yesterday leaving about 25 amendments to be acted on before completion of the merger and election of new officers

In other action the delegates urged establishment of a 36 hour basic work week They held in a resolution the shorter work week would curb layoffs and spread employment in industry

If you don't think children are born traditionalists just try adding an art moderne touch or two to the snowman you construct under the 3 year old's supervision

Food Cans Now Smaller To Meet Family Needs

COLUMBUS—Homemakers can buy most fruits and vegetables in smaller cans and frozen packages than formerly considered standard

Marketing specialists of the U S Department of Agriculture say processors have changed package sizes to meet consumer preference for smaller amounts and lower unit prices Small families with limited storage facilities especially prefer the small packages

Shoppers seeking most economical buys however must check cost per serving or cost per ounce of different size packages, the specialists add

UNKLE HANK SEZ

Report on Prices and Economic Trends
Prepared by Agricultural Extension Service

A proposed $100 billion, 10-year highway program, if approved in 1955 might mean 130 000 more full-time site workers on the job in 1957 than the 220 000 monthly average number of workers full-time in 1954 Assuming a peak by 1960 the number might climb to 500 000 full-time site workers by that time, a gain of 280,000

Employment in allied industries such as mines forests transportation and factories producing and delivering materials requires in addition an equal number of workers making nearly a million full-time jobs over half being additional workers

New home contracts continue up Expect 1 3 million homes to be built in 1955 Construction continues as one of major supports of business activity Indicates continued strong demand for things needed for new homes Building of schools churches and commercial structures also increasing

Consumer spending at record levels of $239 billion rate per year Follows as result of high income after taxes High consumer spending and construction contributed much to offsetting decline in defense spending and business investment during last year.

Retail sales this year starting out strong Has been running as much as 10 per cent above a year earlier Autos showing largest increase

Consumption per capita dairy products Fluid milk and cream was up in 1954 to 352 pounds from 350 pounds in 1953 Butter up to nine pounds from 8 6, a gain of five per cent cheese up to 7 7 pounds from 7 4 a gain of four per cent Evaporated, condensed and dry whole milk all showed small declines Ice cream consumption dropped four per cent while non-fat dry milk gained 11 per cent Margarine consumption increased from 7 9 to 8 3 pounds per person a gain of five per cent Combined consumption of butter and margarine at 17 3 pounds was largest since 1942

Total civilian per capita consumption of milk in all forms was 700 pounds in 1954 compared to 694 in 1952 and 688 in 1953 Use of fluid milk per person will likely increase a little in 1955 other products about the same possibly total 702 to 703 pounds

Milk production per cow at all time high in U S averaged 5,512 pounds in 1954 compared to 5 449 pounds in 1953 In Ohio cows averaged 6 120 pounds in 1954 and 6 010 pounds in 1953 Number of milk cows in U S averaged 22 4 million head during 1954 the highest for any year since 1947

Government purchases of butter during the first six weeks of 1955 were only about one-fourth those of a year earlier of cheese one-third as great and of non fat dry milk about one-half the quantity bought in first six weeks of 1954 C C C owned supplies of butter in early February were 262 million pounds vs 440 million pounds on July 1, 1954 cheese 341 million pounds vs 412 million pounds and non-fat dry milk 69 million pounds vs 302 million pounds on July 1 1954 Volume of purchases likely to be substantially smaller in 1955

Wool Look for shorn wool production this year to be about the same as year ago Market price may be a little lower because of new method of supports

Engineer Sees 1 Combine for Corn, Wheat

LINCOLN Neb (UP) — An agricultural engineer predicts farmers in the next 10 years will be combining corn with the same machine used on wheat

The engineer L W Hurlbut chairman of the University of Nebraska agricultural engineering department says he thinks wide-scale corn combining is just a matter of time

'Experiments indicate the combine will do an excellent job of shelling and cleaning corn' he said

The university has been operating an all-purpose combine manufactured by a commercial firm for about a year

The machine was used on wheat and grass, then in about two hours adjusted to combine corn It cuts off the corn stalk draws it into the machine where the ear is removed and shelled then ejects the stalk and corn cobs to the ground

He said interest in development of an all-purpose combine was accelerated by improved methods of grain drying The combine gave encouraging' results with corn containing 27 per cent moisture—too high for safe cribbing Thus artificial drying methods are needed

JOHN CROSBY

Don Herbert, who is Mr Wizard, hates to have his show called educational — but it is Every week he teaches a flock of kids — and quite a few adults, too — in 140 cities something about music or radar or geology or atomic energy in the most painless possible way.

To avoid anything that smacks of direct teaching, Herbert tries to make his simple scientific experiments seem like magic tricks Then he shows how the trick is done and, quite painlessly you've just swallowed a bit of scientifc truth He uses the simplest and most familiar - looking props

'We don t use flasks when we can use a milk bottle," he says "We don't want to distract people with strange looking equipment or frighten them away by giving the impression that what's coming will be over their heads and therefore dull"

FOR INSTANCE, on one show he taught me the difference between music and noise, between harmony and dissonance First he banged on a can to demonstrate noise, then banged a child's xylophone On an oscilloscope, he showed the 11-year-old girl how the can made an irregular line while the xylophone made a nice regular series of lines

Then by means of a string on a board and a piano string and a few other simple props he explained the mathematical relationship between music and noise It all went down very easily

Keeping the show simple is a very complicated business that keeps six people busy all week long Herbert has two researchers who work with a library of scientific books ranging from grade school level right up to topflight science Herbert picks a subject and then they comb the books for experiments Together he and his researchers rough out a story line which will permit them to explain things visually and create new experiments of their own

The final script is a combination teacher s lesson plan and scenario Herbert says Each step depends on the one ahead—like a plot

THE SHOW IS DESIGNED for the 8-to-12-year age level but actually a lot of much younger kids watch it, as do many adults As to what that age group can and can't understand, his blonde wife, Maraleita explains 'He tries his ideas out on me If I understand them he assumes anybody from the fourth grade up can, too

As Mr Wizard, Herbert plays the role of an average man who just likes to monkey with scientific experiments in a special room in his house Originally it was a one-set show but a kitchen has been added because so many simple experiments can be done there One of his 11-year-olds drops in every Saturday to see what he s up to and the two play directly to each other never to the camera

Let s say he s doing a show on geology and he wants to demonstrate how stalactites and stalagmites are formed Actually, stalactites are originally just big icicles with a heavy load of minerals in the water When the water evaporates, the minerals remain To demonstrate this bit of nature, Herbert put moth balls in an ice cream cone and poured carbon tetrachloride over them The solution dissolved the moth balls, leaving the crystals behind

IN FOUR YEARS, Mr Wizard has performed 2 595 experiments like this on 150 different subjects and has taught thousands of adults more than they ever knew before about science The show is now used as homework by 300 science classes It has a tremendous following for a show of its kind Recently, when Herbert offered a small prize for anyone coming up with a name for his pet parrot 50,000 letters poured in

Tiny Meat Balls Are Topped With Rich Sauce

This meat ball dish has unusual flavor and appetite appeal It makes a perfect family meal or can be used as party fare The tiny meat balls also make fine hors d'oeuveres when served without sauce

Use
1 slice bread
¼ cup milk
1 lb ground veal (rump)
1 egg unbeaten
2 tablespoons onion juice
⅛ teaspoon white pepper
1 teaspoon salt
¼ teaspoon nutmeg
¼ cup flour
Dash of pepper
½ teaspoon salt
½ bar (¼ cup) margarine or butter
½ cup water
½ cup water
1 4-oz can sliced mushrooms
¼ cup sour cream
1 tablespoon water (optional)

Pull bread into small pieces pour milk over it and let stand until milk is almost absorbed Mix veal with next 5 ingredients, add bread and mix well Shape into small balls about 1¼ in diameter Put flour pepper, and ½ teaspoon salt in paper bag add meat balls and shake coating them lightly Melt margarine in skillet on medium heat Add meat balls and brown them nicely all over Add water cover, and simmer over low heat 30-35 minutes Remove balls to hot platter and make sauce as follows To drippings in pan add remaining flour mixture and blend then stir and cook until smooth and richly browned Add mushrooms and liquid and blend Add sour cream and water (if necessary) and cook until smooth and thickened stirring constantly Spoon sauce over meat balls and serve Makes 5-6 servings

Harding Faces Opening Tournament Play Tonight

Presidents, Galion To Battle In Rubber Game of Season

Harding's 1954-55 basketball season stands a good chance of coming to an abrupt end tonight when the Prexies oppose a rejuvenated Galion quintet in their opening Class A Sectional Tournament start on the Coliseum floor.

Coach Jim Lawler's Presidents seek their seventh victory of the season compared to 14 setbacks in the opener of tonight's two-game program at 7 p.m.

The other contest pits Mansfield's second-seeded Tygers, 15-5, against a weak Upper Sandusky squad which has won only three tilts in pre-tourney competition. A Harding win in the opener over Galion, 10-8 for the season, will move it into semi-final play Friday with Shelby's undefeated Whippets and Ashland, 11-8. Their opponent would be the winner of tonight's Mansfield-Upper Sandusky contest, almost certain to be Mansfield's defending sectional champs.

—:—

HARDING GOES into the Galion fray as the underdog on the basis of a lop-sided 79-56 loss to the Tigers a month ago and Galion's complete reversal of form during late season starts. Paced by record-breaking performances by Tom Quay, Galion's 6-3 senior center, the visitors copped eight of their last 10 starts after winning two of their first eight.

Only loss in the last eight games for the Tigers was an 83-74 decision to Shelby's high powered Whippets last Friday. In that tilt, Quay pumped in 38 points, hitting on 15 of 20 attempts from the field.

A late season scoring burst has boosted Quay's game scoring average to 25.0 on 451 points in 18 contests. His point total is a new school season scoring mark and the 46 points he shoved in against Mansfield Madison last week is a new single game scoring mark at Galion. Twenty-nine points against Upper Sandusky in a previous game gives Quay 113 points in the last three games. Against the Prexies, he popped in 37.

—:—

SCORING SUPPORT will come from Galion's brother combination of Tubby and Harry Garverick. Tubby and Harry Garverick. Tubby, a senior guard, has dropped in 214 points in 18 games while Harry, a 6-1 junior forward, has 184 after taking over as a starter early in the campaign. Charlie Miller at a forward slot and Bob Johnston at a guard post round out Galion's starting lineup. Miller and Johnston are only averaging six and five points a game resectively.

Harding is expected to lineup with Lowell Carlisle and Phil Sykes at forwards, Bob Messner at center, and Phil Carroll and Joe Snouffer at guards.

Carroll is the team's leading scorer with 205 points in 18 games while Snouffer has hit for 193 in 20. Snouffer netted 57 of those in the last five games while Carroll has hit for 36 in three after missing two conflicts with the flu. Both are seniors and along with Gene Armstrong and Frank D'Eramo may be seeing their final action for Harding tonight.

Messner is next in line with 135 points after regaining a starting role during the past five tilts. He has hit in double figures in all five games, totaling 75 points. Carlisle has 131 since taking over as a varsity regular early in the season and Sykes, a sophomore, has dropped in 47 points in five late season starting assignments.

Harding will be seeking its first win in the sectional here. Last year, the Prexies bowed to Mansfield 62-52 in their tourney debut. Prior to that, Harding had been traveling to Columbus for tournament play.

Mills Hints Big Ten Set For Revolt

CHICAGO (AP)—Speculation that the Big Ten conference might reject the NCA's football television plan for 1955 gained strength today on the eve of the Western Conference Television Committee meeting at East Lansing, Mich.

Doug Mills, University of Illinois athletic director, yesterday said the Big Ten "may be divorced" from the National Collegiate Athletic Assn. because of the dispute over football television.

Mills, a member of both the NCAA and the Big Ten television committees, criticized the game-of-the-week program in testimony before the Illinois Senate Education Committee.

The committee unanimously approved a bill permitting the University of Illinois to televise its athletic contests. The bill was sent to the House floor.

Significance was attached to the fact that the Illinois athletic chief made his statements with full knowledge of the NCAA's revised plan.

The NCAA earlier this week reiterated that the 1955 plan will be mailed to member institutions today and will be made public tomorrow.

Claridon Opens District Action At Westerville

Claridon is the first Marion County squad to see action in the Class B District Tournament when it plays at Otterbein tonight.

The Hornets, third-place finishers in the county tournament with a 17-3 mark, oppose Liberty Union at 8:30 p.m. in the second game on the program.

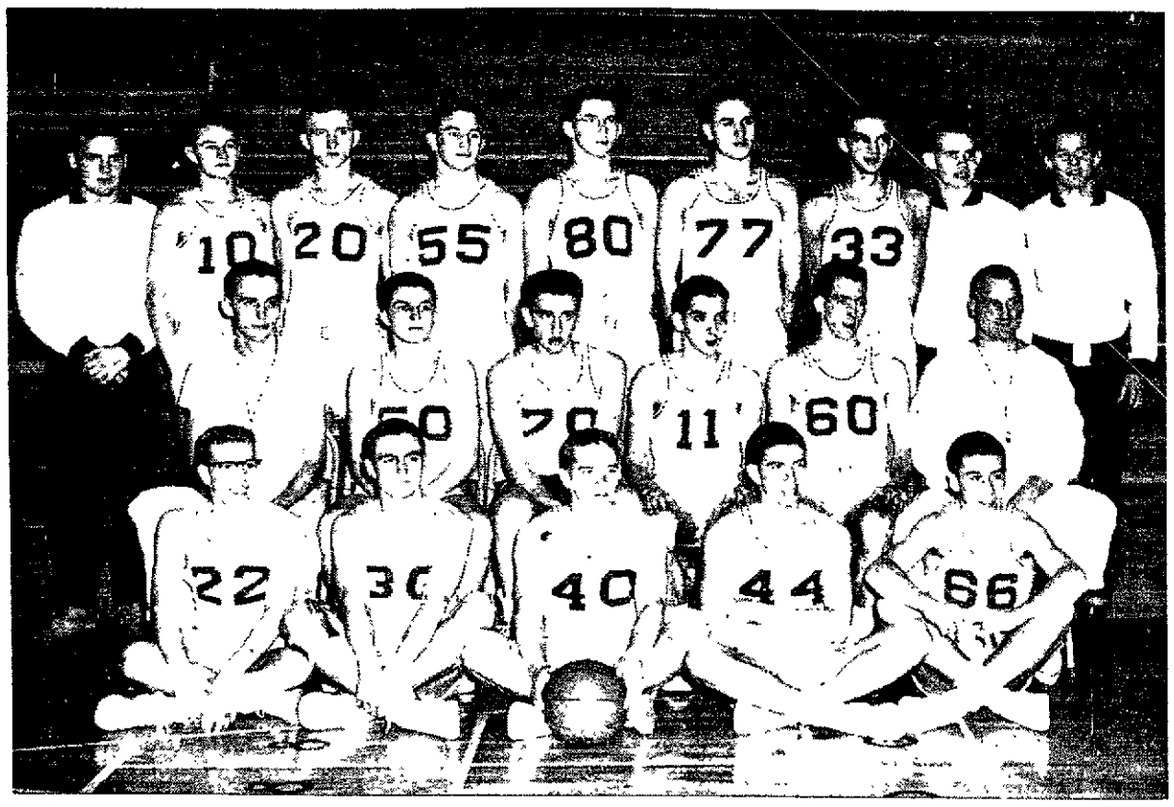
Delaware County's Olentangy (14-9) is paired with Plain City (16-6) in the opener at 7 p.m. Two area teams bump into one another in the opener at Capital where Northwestern (12-11) of Union County takes on Big Walnut (15-8). Delaware County's other Central District tourney representative.

Claridon's opponent tonight in its first 1955 tourney action sports an even better mark than the Hornets. The Liberty Union squad shows 18 wins in 21 starts

A win by Coach Bus Augenstein's Hornets would move them into quarter-final round play Saturday night. Their opponent would be the winner of tomorrow night's clash between Prospect (20-2) and Atlanta (16-7). They meet in the opener prior to the Mount Gilead-Ashville tilt.

Marion County's third representative in district play sees its first action Friday night. LaRue (17-3), in the Capital bracket, faces Scioto (18-5) in the second game that night.

Morrow County's Chesterville (18-4; is another area squad in action Thursday night. It meets Dublin (17-3) in the opening game at Capital. Magnetic Springs (17-5) from Union County seeks its second straight tourney win when it opposes West Jefferson (7-17; in the opener at Otterbein Friday night. The second game pits the winner of the Mount-Gilead-Ashville game against Amanda (11-11).



BEGIN TOURNEY BID. Harding High School's Prexy cagers open their bid for 1955 tournament honors tonight at the Coliseum when they meet Galion in the opening game of Marion Sectional action. The two teams broke even in a pair of regular season clashes. Members of the team, which carries a 6-14 mark into the tourney, are: front row (left to right) Bill Smith, Gene Armstrong, Joe Snouffer, Phil Carroll and Jed Middleton, middle row (left to right) Coach Jim Lawler, Dick Wilson, Bob Williams, Paul Bender, Bob Shaffer and Al Beach, assistant coach; and back row (left to right) Pete Schnauffer, manager, Mike Shields, Ted Bibler, Phil Sykes, Bob Messner, Frank D'Eramo, Lowell Carlisle, Pete DeWolfe, manager, and Hank Rinnert, manager.

Eaton, Morral Capture YMCA Cage Verdicts

Eaton's Boilermaker's Union kept its championship hopes alive Tuesday night at the YMCA by defeating Marion Power Shovel 63-57 in Industrial Basketball action. The Boilermaker's tangle with McMillen Feed next Tuesday night in the wind-up of regular season play.

A win for McMillen will give it the second round championship while a victory for the Boilermaker's would toss the second round into a two way tie and necessitate a play-off. The winner of the second round will then face Marion Power Shovel, champions of the first round, for the Industrial League trophy and a chance to represent Marion in the district tournament.

Eaton moved away to a 13-8 first quarter lead but lost its margin in the second quarter when the Shovel came back with a 24-point rally to send the two teams off the floor with a one-point difference. Eaton came on with a strong third quarter scoring thrust and rolled to a nine-point edge after two minutes of the final period. The winners coasted in on its lead. Jack Gorham and Jack Daum paced the Boilermakers with 21 and 20 points respectively while John Craycraft and Lowell Hensel pitched in 19 and 17 each for the Shovel.

In other games, the Morral Merchants racked up a 67-40 victory over Pollak Steel as the combination of J. Higgins, Ron Craycraft and Bob Merrow connected for a total of 54 points. Higgins was tops with 20 while Craycraft and Merrow followed with 18 and 16. Gene Jessie topped the Pollak scoring parade with a total of 18 points from the floor. The Merchants moved to an early lead and increased its margin constantly throughout the game without being in any serious trouble

QUICK 'HAT TRICK'

BOSTON (AP) — Hockey's "hat trick" — scoring three goals in one game — has been done many times but probably never as quickly in a college game by Jim Pope of Rensselaer Polytechnic Institute. The RPI defenseman in a game with Northeastern University scored three goals in a minute and 40 seconds. His rapid fire goals gave RPI a 5-2 win.

Bruce Drake, basketball coach at Oklahoma U., not only was a court star in his undergraduate days but also was quarterback on the football team and pole vaulter on the track squad.

Bowling

Ken Abbotts 244 and William Daugherty's 575 led the field in the Craftsman League at Marion Recreation Tuesday. A total of 10 games of 200 or better was posted with Fred Miller hitting 219 and Ed Thibaut rolling 214 while top series included Abbott's 562, Tom Simmons' 560, John Kayalin's 560, Paul Eshman's 551 and Cliff Phillians' 550. K of C walked off with team honors by cracking 926-2641.

Sportsman's League keglers were paced by Bill Weis' 246-624 performance at Palace Recreation. Eleven games of 200 or more were recorded. Sherm Haldeman hit 211-569, Paul Miers 314, Robert Van Scoy 242-564, Glenn Penry 572, Merv Harruff, 210, and Robert Scott 208. Hursts with 911 and Sunset Tavern with 2751 shared team laurels.

Gilbert Gilmore set the pace in the Automotive League when he rolled 203-523. Fred Lust also showed a 203 game, while Jim Fahey hit 523. Merle Lust 507 and Dale Snyder 502. Rankin Olds led the teams with 829-2401.

In Marion Power Shovel League action, R. Young showed the way with 274-576. L. Williams trailed him with a 570 effort. Team honors were split, with 86 netting 858 and Cellar Dwellers totaling 249.

Redleg Hopeful Shows Power In Hitting Drill

TAMPA, Fla. (AP) — Husky Bob Thurman added power today to the already potent Cincinnati Redlegs batting strength.

Thurman, 205-pound outfielder, slugged three balls out of the park yesterday in one turn in the cage. Jim Greengrass, Andy Seminick, Dutch Dotterer, Dick Murphy and Wally Post also blasted a couple out of Plant Field.

Manager Birdie Tebbetts devoted most of the opening two-hour drill to batting practice

Tebbetts seemed satisfied at the condition of his players.

"No one is fat," he noted. "Everyone's in shape."

He outlined training camp rules. "They are the same rules that regulated last year's training," he told reporters later. "Midnight curfew, no ban on golf, each player will be called at 7:30 in the morning and breakfast must be consumed by 9 o'clock."

The good-natured manager indicated that the midnight curfew would not be strict, that players could get permission to stay out later if they found it to be "necessary."

Ohio's Delaney Climbs to 6th In Ring Rating

NEW YORK (AP)—Akron's Ronnie Delaney has vaulted into the national ring ratings announced today by Ring Magazine.

A recent win over welterweight champ Johnny Saxton jumped Delaney into the No. 6 spot among middleweights.

There was a wholesale shakeup of every division from the lightweight class up in the March ratings.

Big Bob Baker of Pittsburgh, who has won eight straight, moved up from fourth to third in a swap of heavyweight positions with Ezzard Charles, the former champ. It was the lowest Charles has been rated in many years.

Kid Gavilan, former welterweight king, dropped to fourth behind Carmen Basilio, Vince Martinez and Tony DeMarco. A month ago Gavilan was second.

Joey Maxim of Cleveland is ranked as the top contender in the light heavyweight division; Rocky Castellani of Cleveland third among middleweights; Wallace (Bud) Smith of Cincinnati fifth among lightweights.

Favors Leg

Tigers' Fain Still Slowed By Injuries; Doby Signed

By ED CORRIGAN
Associated Press Staff Writer

As if he didn't have problems enough trying to pull a second-division club, loaded with inexperienced youngsters, up by its bootstraps, Manager Bucky Harris of the Detroit Tigers today turned his attention to worrying about Ferris Fain.

The two-time American League batting king jammed his right knee in a game last season when he was playing with the Chicago White Sox. The Tigers took a chance on him and obtained him in a trade during the winter in hopes the knee would come around.

Fain, a first-baseman, not only is a hitter of ability, but, almost as important, he's one of the few really experienced players on the Bengal roster.

"Fain will be my first baseman if his knee is all right," said Harris, who took over the Tigers this year.

But as of now, Fain's leg is not all right. He limped noticeably yesterday, the first day of training, and admitted he was favoring the leg.

"There's no use denying the darn thing has me worried," said Fain. "But doctors tell me it's going to be okay. If I didn't feel they are right I wouldn't be here in camp."

He revealed he aggravated the injury twice during the winter—once while pheasant hunting and again when he toppled three feet off a scaffold.

Meanwhile, General Manager Hank Greenberg of the American League champion Cleveland Indians, disgusted with the antics of some of his players who have refused to sign, cracked the whip and brought outfielder Larry Doby into line.

Greenberg talked to Doby several hours yesterday and they reached no agreement. Greenberg then told Doby there was no use hanging around the Tucson, Ariz., camp, and ordered him home to Paterson, N. J. Doby signed in a hurry, at, he said ruefully, Greenberg's terms."

Greenberg also hauled third baseman Rudy Regalado and pitcher Hank Aguirre into line, leaving an even half-dozen tribesmen outside the fold. All told, there are only 24 holdouts in the majors and most are expected to capitulate shortly.

The New York Yankees had some encouraging news from their GI second baseman Billy Martin. He hopes to be out of the Army by early July. There was a flurry in the Yankee camp in St. Petersburg, Fla., when the report began to circulate that he would rejoin the club early in the season, perhaps by opening day

Stan (The Man) Musial of the St. Louis Cardinals and Jackie Robinson of the Brooklyn Dodgers both reported overweight.

Special Pad Used

Al Rosen Protecting Finger Broken During '54 Season

TUCSON, Ariz. (AP)—Al Rosen, hoping to boost his batting average, used a special doeskin pad on his injured right index finger today in batting practice with the Cleveland Indians.

The third baseman's average skidded from 336 to .300 last season after the break suffered in an early-season game.

Dr. Don Kelly, Indians team physician, designed the pad to protect the broken finger joint. The finger was broken so badly Rosen could not properly grip a bat.

The finger is still puffy and Rosen says, "We've got six weeks before the season starts and I'm not taking any chance with this thing."

Another watching himself carefully is Eddie Joost, who is trying to win a job with the Tribe despite ligaments torn in his right knee in 1953.

The knee "feels good now, but I really haven't done anything yet. I made the mistake last spring of starting out too fast and I had trouble with it all year. I'm going to take it slow this year, so it will be a few weeks before I know anything," the former Philadelphia Athletics manager said.

Manager Al Lopez had each player take several turns in the batting cage during the first practice and gave nearly every pitcher a chance to throw briefly from the mound. He called it a "good workout."

"All in all," he continued, "the boys look pretty good. A few of them have put on some weight but the general appearance of the team looks good. "I'm very well satisfied."

Harpster Cagers Crush Marion Brick and Tile

Harpster bumped Marion Brick and Tile 93-62 in the Tri-County League finale of both squads last night at the winners' floor.

The Marion County entry managed to stay in the ball game for only one quarter when it held a 14-7 edge. In the second stanza, Harpster's attack picked up and the winners finished the half with a 37-26 bulge. They led 63-46 at the start of the final quarter.

The losers were playing with only four men and were unable to cope with the Harpster sharpshooters. Jim Shifflet and Weston paced the losers' offense with 20 points each. Granlee dropped in 18. Five Harpster cagers hit in double figures with Harold Dillon's 26 showing the way. Mathews had 18. The win gave Harpster an 11-1 mark in league action.

Forgotten Fliers

By George Sokolsky

It may be an impolite question to ask. It may be out of order and embarrassing. But what has become of the American fliers and other prisoners held in Red China?

SOKOLSKY

Perhaps it will be remembered that on Nov. 22, 1954, the Red Chinese announced that they still held American fliers as prisoners and that they called them spies. The administration, members of Congress, columnists, commentators and editorial writers got themselves all excited and it looked like war.

Then Dag Hammarskjold, who is the manager of the United Nations, offered his services, slowly, diplomatically, to go to Peking to talk it over with Chou En-lai, the Chinese Communist premier.

-:-

IN DUE COURSE, Hammarskjold went to Peking after first visiting Nehru in India. He went, he talked, he came away empty-handed. The Red Chinese must have misunderstood Hammarskjold's visit because after he left Peking, things became worse. Since then he has been silent.

But what has been done about the Americans who are being held as hostages? For what reason are they being ignored and forgotten? What contract did Hammarskjold offer which has not been accepted by either the United States or Red China? We have not been told anything in this era of unnecessary secrecy.

However, way back on Sept. 12, 1953, it was reported that Wilfred Burchett, the Australian - born Communist propagandist for the Chinese Communists, who acted at the Panmunjom truce conference as press agent for the Communists and also as correspondent for the French Communist newspaper, "L'Humanite," announced that Capt. Harold Fischer, Jr., an American ace, and an undisclosed number of other American fliers were not freed by the truce of Panmunjom, and would be held back after the other prisoners were exchanged.

Burchett indicated, in September 1953, that these prisoners could be freed "through diplomatic channels," which could only mean that these men were being held as hostages until the United States agreed to discuss other matters, perhaps a seat in the United Nations or the elimination of Chiang Kai - shek from Formosa. Burchett apparently had his instructions to say what he did.

-:-

SO, AS EARLY AS September 1953, the United States was told what the price for the release of Americans would be, told by a man who publicly acted for the Red Chinese during the whole of the Panmunjom negotiations.

What was done before Burchett spoke about this? What has been done since then? What has become of these young Americans, taken as prisoners of war, in full uniform and bearing proper identification? Nevertheless, they are denounced as spies.

There are callous people in our country who feel that nothing should be done about these Americans caught in this trap not of their making. Whatever these young men did as soldiers, they did under orders. They were obedient to the proper officials of the government of the United States.

The United Nations command asked for an accounting for 944 Americans who have disappeared. Has our government ever received such an accounting? I wonder how any one of us would feel if one of those Americans were our son.

When Maj. David F. MacGhee of Tampa, Fla., was released in September 1953, he said in Tokyo that he was told, while he was in captivity, that the Chinese Communists planned to hold 22 American fliers until the United States was forced to recognize Red China.

There must be a huge volume of such information in the State Department and the CIA. Collecting information may be an important function of these agencies, but what do they do about Americans who are imprisoned in Communist countries.

-:-

OUR GOVERNMENT has not recognized Red China. It has not submitted to blackmail and it has been right in not submitting to blackmail. But does that mean that all Americans held prisoners in Red China and perhaps in other Communist countries are to be held forever?

Surely the American people ought to be told what happened to the Hammarskjold negotiations. We ought to be told in detail what offer he made to Chou En-lai, what Chou proposed as a counter offer, what the decision of the President and State Department was.

We have lost the thread of this situation as a stream is lost in the sands of the desert. We get no information as though we had no right to know.

Played at Coliseum

Cleveland, Troy Battle to 7-7 Standoff in Last Hockey Tilt

Cleveland's Barons and the Troy Bruins finished in a 7-7 deadlock last night in the final hockey exhibition of the season at the Coliseum. The game was played before one of the smallest crowds of the year.

The game ended in regulation time since no provision is made for overtime periods in exhibition hockey play.

—:—

THE CLEVELAND club, defending Calder Cup champion in the American Hockey League, jumped into an early lead and finished the first period out front by a 3-0 count. Eddie Olson started the scoring parade after only 7:58 had elapsed. He batted in a shot from 10 feet in front of the net while Troy's Goalie Bill Tibbs was involved in a scramble. Eric Pogue and Jack Gordon assisted. Eddie Reigle hit paydirt for the Barons at the 13:36 mark and was assisted by Tom Williams and Bill Ford. The Gordon, Pogue and Olson line scored again after 19:31 with the goal going to Gordon.

The Bruins came back in the second period to knot the count with a three-goal spurt of their own. Gordon Buttrey slammed in a score after 5:33 had passed and Bobby Manson scored at the 15:02 mark. Marty McAlendin knotted the count when he faked the Barons' Phats Perras out of position at the 16:55 mark. Forty seconds later, however, Ford regained the lead for his mates with a backhand shot which gave Cleveland a 4-3 edge at the end of the second period.

—:—

THE TEAMS hooked up in an explosive offensive duel in the third period with a total of seven goals scored during the 20 minutes.

Cal Stearns hiked the Baron margin to 5-3 in the first two minutes of action before Kee Mortson and Coach Nellie Podolski netted goals for the Bruins to tie the score after 7:06 had went by the boards. Gordon's second score regained the lead for the Barons but Podolski tied the count at 6-6 with 14:30 elapsed. Williams batted in a rebound shot at the 16:30 mark for a 7-6 Cleveland edge but the Bruins' Bobbie Rawlyk scored 19 seconds later to assure the Bruins of a tie. Rawlyk's goal came after Ollie Olson had poke checked the puck from the Barons' Williams at center ice and escaped the Baron defensemen.

Local Group Assists in Picking Best Family Life TV Program

The Family Service Society is participating for the second year in a nationwide effort to select a weekly television program which best presents a picture of wholesome American family living.

Mrs. Frederick Rea and Mrs. Smith Witter are heading the project. They have enlisted the help of 18 lay and professional volunteers in the community to view and score family situation broadcasts seen on their home television screens during the month of March.

The viewers are Mrs. Claybourne Smoot, Mrs. Joseph Galloway, Mrs. James Dickson, Mrs. William Kimball, Mr. and Mrs. Arthur Haas, Mrs. Glen Penry, Mrs. John Lightner, Mrs. Richard Morgan, Joseph Whisler, Miss Mary K. Stone, Mrs. Lois Ansley, Miss Dorene Baer, Miss Marjorie Pribe, Miss Vivian Hall, Mrs. Doris Maxwell, and Mrs. Marjorie Sechrist.

After viewing four consecutive programs during the month of March, each participant will answer such questions as: Are there basic ties of affection among all members of this family? Does the family have a sense of moral and social values? Does the family encourage the growth of its children toward independence by permitting them to learn through experience.

Similar groups are being organized by others of the 260 affiliate agencies of the Family Service Association of America in 230 cities around the country.

Purpose of the contest is to stimulate improvement in the essential quality of family life portrayed on the televison screen. Mrs. Maxwell, executive secretary of the Family Service Society, reports that family agencies "believe that people learn from what they see and hear, even though the learning process may be subconscious. Actions and attitudes of the family seen week after week on the television screen can have an important effect on the viewer's concept of family life."

An award will be presented to the network program chosen during National Family Week from May 1 to 7. Winner of the first award in 1954 was "Mama."

Merger Impact

By Victor Riesel

President Eisenhower, having had some contact with the Army, is fond of going through channels —and when he wanted to fathom the full meaning of the AFL-CIO merger he asked Secretary of Labor James Mitchell to tell the cabinet all about it.

VICTOR RIESEL

Jim Mitchell had a report ready for the Feb. 18 cabinet gathering. The President's labor aide-de-camp, it can now be disclosed, asserted that the most important impact of the new labor federation of 15 million members would be political.

Mitchell said that all other effects of the launching of the Western World's largest union coalition were secondary. This, of course, is of terrific importance for the Republican high command, since only the uninitiated do not know that many important American labor leaders today are sitting in the top councils of the Democratic party.

Just six days after Mitchell reported to the cabinet, he appeared to have been corroborated by a statement CIO chief Walter Reuther made behind the closed doors of the CIO's executive board session on Feb. 24.

-:-

REUTHER'S REMARK, despite its import, was lost in the fumes of the sulphurous debate with Mike Quill. But it overshadowed, at least to me, everything else said there.

Reuther stated that the new labor federation, once it was launched, would earmark for political activity one penny out of every four cents paid in dues to the new office of what might be called the American Congress of Labor until they formally adopt a new name.

This would mean that the welded organization would have a political budget of some $1,800,000 annually if we use labor's own figures. Here's how the figure develops:

The "American Congress of Labor" will have at least 15 million members. More perhaps. At the Feb. 24 CIO session, the Steelworkers Union leader, David McDonald, revealed that the influential independent railway unions were considering joining the new fraternity. But even at 15 million duespayers, the national headquarters would collect a penny apiece a month for this political activity, or "education," whatever it would be called to stay within the Taft-Hartley law requirements.

This adds up to $1,800,000 a year —and perhaps 2 million by the time independent unions join or new unions are organized in the chemical and plastics fields. This money would be in addition to the funds raised by the merged AFL Labor League for Political Education and the CIO's Political Action Committee.

-:-

THIS $1,800,000 could pay for year-round activity and legislative action — and for the 50 or more lobbyists the AFL and CIO now have in Washington.

But actual campaigning would have to be paid for by the merged political league and committee. Just when this merger will come off, can't yet be said. But it is definitely scheduled. Two weeks the CIO's political director, Jack Kroll, telephoned his AFL counterpart, James McDevitt.

Both these leaders are serious men, devoted to their cause and peripatetic as a free lance pilot. Kroll didn't know when they'd both be in the same place at the same time, so he asked McDevitt to come over at the AFL official's convenience and look over the CIO's political headquarters and records. The invitation was cordially received and Jim said to Jack, "You come up soon to see us, too."

However, until they receive word from on top, the two political machines will function independently. The CIO-PAC is going right ahead raising funds for this year's political budget. Kroll rather energetically told the CIO board the other day. He asked them not to slow down because of the merger.

-:-

KROLL SAID PAC is still in business and asked the CIO leaders not to wait until campaign time, but to send their money in now, even if it means advancing the funds out of their union treasuries.

A move by Dave McDonald, at this CIO meeting, to shift PAC's staff from a budget of its own to the CIO payroll brought polite, but very determined and successful, opposition from Reuther and Kroll.

So PAC and LIPE will be running full blast until they are merged. Then the new political committee will be an influential operation. Last year, for example, the Democrats won wherever the AFL and CIO got together on a campaign — in New York, Pennsylvania, Michigan, Illinois and Oregon.

Working under one roof, under one director and out of one budget, the 1956 model of the new political machine will be tough indeed for the Republicans to buck.

Dinner Set Saturday

Registrar at Ohio State To Address Alumni Here

Ronald B. Thompson, registrar and university examiner at Ohio State University will be the main speaker when the annual Ohio State Day is observed by members of the Marion County Ohio State University Alumni Club with a dinner meeting at the Marion Country Club Saturday night.

Thompson is expected to discuss the plans that the University is making to prepare for the greatly increased enrollment anticipated in the near future.

—:—

HE IS THE immediate past president of the American Association of Collegiate Registrars and Admissions Officers. He has worked with this group and other national organizations in studying the enrollment problems of the nation's universities and in outlining the preparations that must be made for the future. Before coming to Ohio State in 1944, Thompson was the registrar for the University of Utah.

Lord Willing

By Hal Boyle

NEW YORK

The Lord willing Dr. Frank Humphrey hopes at 70 to build an Eden for alcoholics. The elderly Virginia veterinarian, since sobering up 10 years ago after a 47-year bout with the bottle, has helped reform hundreds of other alcoholics since then.

HAL BOYLE

Often he has driven hundreds of miles to bring hope to a liquor-ridden man given up as hopeless by his friends and doctors. The work is more than a hobby to him. It has become his greatest reason for living.

"I don't mind going any distance if I can be of help," he said. "This has brought me more satisfaction and happiness than anything in my life. I used to hate myself. Now I don't."

—:—

BUT DR. HUMPHREY is getting older, so last month he worked out a plan so the alcoholics can come to him. He bought a 359-acre farm near Culpeper, Va., and is turning it into a salvage center for drunkards.

"It will simply be a place where alcoholics who want to rehabilitate themselves can come, get back on the right path, and put themselves in physical shape to go back to normal life."

"There won't be any doctors or nurses. I'm doing this on a shoestring. If a man needs pills and hypos, he ought to be in a hospital."

The farm, called "Lord Willing" in tribute to the higher power which Dr. Humphrey feels enabled him to straighten out his own drinking problem, will be stocked with cattle, sheep, and hogs. It will have a vegetable garden.

"I don't know of anything quite like this that is now being done anywhere else," said Dr. Humphrey. "The men will work under the supervision of a skilled farmer. We'll be able to take about 10 men at a time and I feel we'll be able to put at least 100 men a year back on their feet. A month of simple outdoor living will work wonders in the way of health."

—:—

THE PROJECT IS supported by a number of local ministers. Neighboring craftsmen — carpenters, masons, and plumbers—have volunteered their services in putting the old farm buildings into condition.

Dr. Humphrey will spend as much time at the rural retreat as his work allows. He is a dairy inspector for 23 northern Virginia counties.

Does such a simple program have any real hope of curing chronic drunkards? Dr. Humphrey is sure it will.

"It takes a drunk to talk another drunk's language," he said, cheerfully.

Dr. Humphrey feels he knows that language thoroughly. Before he took up drinking as a fulltime career, he raised thoroughbred horses, used to go foxhunting with his old friend, the late Gen. George Patton.

"Because of my drinking I lost two valuable farms and two lovely wives who are, however, among my best friends today," he recalled. "When I reached the point where I knew I had to give up either my veterinary practice or liquor, I gave up my practice—for 15 years."

—:—

TEN YEARS AGO, sick of living, he attended a meeting of Alcoholics Anonymous club in Baltimore. It was the stepping stone to his own cure. Now he feels there is no such thing as an incurable alcoholic.

"None is helpless if he'll be honest with himself," he said. "religion helps, but it doesn't have to be any formal religion. If a man will admit there is a power greater than himself, he can be helped, and I don't care whether he calls that power God or a gatepost—just so he can talk to it.

"You can't rehabilitate an alcoholic unless he wants to be rehabilitated. But with time and patience you can find ways to help make him want to straighten up."

Dr. Humphrey, who has been both outside and inside the bottle, has reached a few personal conclusions on alcoholism and social drinking.

"I don't believe there is any single physical cause for alcoholism, and I know there is no drug that will cure it," he said.

"Liquor is simply progressive. I've never met any man or woman strong enough to whip whisky if he keeps playing with it long enough."

Humorist Speaks At Rotary's Farm Guest Day Lunch

A humorous talk by Rev. Bertram Fleming, pastor of the Enon Methodist Church at Springfield, was heard by members of Marion Rotary Club and their guests at the weekly luncheon Tuesday noon at Hotel Harding.

Thirty - seven Marion County farmers attended as guests at the club's annual meeting arranged to promote better understanding between urban and rural residents. The program was arranged by Rotary's rural-urban committee and its chairman, Perle D. Lockwood, introduced the speaker.

Rev. Fleming devoted the serious portion of his discussion to the subject of success. He said ideas differ widely on what constitutes success but too much stress is placed on material things, things.

He built his talk around famous sayings by three great men — "Know thyself," by Socrates: Control thyself," by Marcus Aurelius, and "Deny thyself," by Jesus.

Visiting Rotarians at the meeting were F. F. Corfman of Bucyrus, W. F. Norton of Mansfield, Rob Roy McKinniss of Bucyrus and Harold Van Horn of Kenton. Guests, besides the farmers, included L. L. Starner, Melvin Weston and Lavern Pfeiffer, all of Marion, and William Wilson of Morral.

Student reporter from St. Mary High School was Sheila Cusick.

Morrison To Talk At Kiwanis Club's Weekly Luncheon

Fred (Curley) Morrison, former Ohio State football star and a fullback for the champion Cleveland Browns, will be speaker at the Kiwanis Club meeting Thursday.

Morrison played his first season with the Browns during the past campaign after going to Cleveland in a deal which sent Harry (Chick) Jagade to Chicago. Prior to that, Morrison had played four seasons with the Bears at a starting fullback slot.

A fine runner and pass receiver and one of the National Football League's top punters, the big fullback was the Bears' No. 1 draft pick after a brilliant season at Ohio State University. His squad copped the 1949 Big Ten championship and went on to down California in the Rose Bowl.

Ex-Marionite Fined in Fraud Against BUC

Drew $140 in Jobless Pay Claims While He Had Employment Here

A former Marion man charged with fraudulently obtaining unemployment compensation was fined $200 and costs and sentenced to six months in the workhouse when he pleaded guilty in Municipal Court today.

The charge was filed against E. J. Branson, 45, now of Columbus, last June by George N. Blair, a special investigator for the Ohio Bureau of Unemployment Compensation.

Before police could arrest him on the charge, Branson left town and police throughout Ohio were notified of the warrant for his arrest, Blair said.

Traced to Columbus

Through information obtained by Fred B. Scherff, manager of the BUC office in Marion, Branson was traced to Columbus, taken into custody and returned to Marion Tuesday.

Blair said this was one of the most flagrant violations of the unemployment compensation law here in several years.

He said that the violation occurred after Branson first filed an unemployment claim Nov. 25, 1953.

At this time he was unemployed and lived at 122 Scioto St. in Marion. Later he found employment at a local manufacturing company and at the same time continued to draw unemployment compensation while earning between $50 and $60 a week, Blair said.

Lasts Over Month

This continues from May 11, 1953 until June 24, 1953 when Branson lost his job, Blair said.

In all Branson received benefits totaling $692 and was entitled to only $552, Blair said.

What made the violation particularly flagrant was that Branson would punch out on his time-card at his place of employment, go to the local unemployment office, certify he was unemployed, return to his job and ring back in on the time clock, Blair said.

Because of an increase in fraudulent claims, the Ohio BUC is stepping up its investigations of all claims and all violators will be punished, Blair said.

Supremacy

with military effectiveness, she must be able to deliver it under rigid conditions on a target. Officials say she is not now able to do that, and will not be able to for perhaps three or four years.

The conviction is that meanwhile the United States has the military power, including atomic weapons, to meet with reasonable confidence any Red challenge anywhere.

In general, this appraisal gives fateful significance to the last two years of the present Eisenhower administration and to the first two years of the next, regardless of who is president.

Policy makers in Washington and London must determine whether their policies hold any reasonable prospect of providing stability in the world or whether they should be revised There is also special pressure to find a workable world disarmament plan while bolstering free world alliances.

The problem now developing is not unlike that which faced President Eisenhower when he first took office. He found the United States and its allies near the peak of their military buildup.

He could use that force to bring about a stabilized world in an essentially offensive or defensive manner. In general, he has chosen to use the force defensively, to avoid any serious risks of conflict in favor of settlement by negotiation.

City Health Officials Preparing For Possible Polio Vaccinations

Preparations are in full swing for administering the Salk polio vaccine to first and second grade school children in Marion, if and when the vaccine is approved for use, Dr. M. M. Weinbaum, city health commissioner, announced today.

The County Health Department announced earlier this week it was making plans for the vaccinations should they be authorized.

All necessary supplies have been ordered and will be in readiness for the mass immunization when final results of tests made last year are released sometime after April 1, he said. Evaluation of these tests will determine whether or not the vaccine is effective in the prevention of polio or in lessening its effects.

If the green light is given for use of the vaccine, a total of five weeks will be required to give each child the necessary tree injections.

Dr. Weinbaum said that vaccinations will be given only to first and second grade children whose parents have consented. Permit slips are now being prepared and will be distributed to the schools next week. Children who do not return a signed slip from their parents will not be eligble for the vaccination, Dr. Weinbaum said.

He emphasized that no vaccinations will be given any child unless the vaccine is fully approved for use.

Personal Property Tax Returns Must Be Filed in County

Marion County residents were reminded today by County Auditor Maurice C. Clements, that many of them must file personal property tax returns by March 31.

All persons, partnerships, associations and corporations engaged in business such a manufacturers, merchants, farmers, lawyers, doctors, dentists, accountants and operators of hotels, rooming houses and apartments must file returns with the county auditor.

So far abou 500 returns have been filed, Clements said.

All residents of Ohio owning intangible property, regardless of its use, such as stocks, bonds, notes, land contracts and other intangible property, are also required to file returns.

Returns must be filed in each county where property is owned by the individual or business. Mandatory penalties are provided for filing returns after March 31.

The rate on the tangible property tax varies in each township, but is the same as the real estate tax rate.

Intangible property is taxed at five per cent of the income on productive investments, and two mills to the dollar on unproductive investments and deposits. Money, credits and other taxable intangibles are taxed at three mills to the dollar.

Although the returns are filed with the county auditor, the tax is paid to the county treasurer. Tax forms were sent out last month, but any who have not received them may obtain them from the county auditor's office.

Careful Watch Being Kept on Hawaii Volcano

PAHOA, Hawaii (AP)—More than 400 refugees from volcanic eruptions awaited a go ahead from Gordon A. MacDonald, director of the Hawaiian Volcano Observatory, and civil defense officials, to return to their homes.

MacDonald said about 160 acres of cane field and umber were charred by the eruption, which started with a spectacular explosion Monday.

"It looks like it is dying down now, but there's no telling what she might do" today, he said after an exhaustive survey.

MacDonald reported some steaming and subterranean rumbles.

"The lava river is still flowing but it is slowing down. Much of the activity apparently is below the surface," he said.

The lava was cooling rapidly on the surface, but it was furnace hot beneath and a red glow still hung over the sky.

An earthquake described as "fairly strong" by MacDonald shook the area yesterday afternoon but no damage was reported.

Last night, the Red Cross flew Hollywood's Johnnie Ray, Frankie Lane and a party of 20 entertainers to put on a show at Pahoa High School. Five hundred refugees and bobby soxers filled the gym.

Sightseers still streamed to the scene of the eruption.

Robbery

(Continued From Page 1)

Mrs. Bolin then handed him a $5 bill and seven ones and started to hand him a roll of quarters from the cash drawer. Looking disdainfully at the quarters, he said, "I don't want them, you keep 'em. Now don't you make a sound."

With a final wave of the gun toward her, he left.

Mrs. Bolin immediately called her husband from an upstairs apartment who in turn called city police.

She described the thug as being about 23 to 25 years old. He was wearing a hat pulled down over his forehead and a white handkerchief tied across his face as a mask. He had on a gray topcoat. He was about five feet, eight inches tall and was of slender build.

Neighbors told police that a man fitting the description of the robber had been seen in the neighborhood for the last few days.

Police asked that anyone knowing a man fitting the description of the robber call police.

'Uneasy' Sensation Over Nevada

Reporter Flies Through Atomic Cloud

By BILL BECKER

LAS VEGAS, Nev. (AP)—What's it like flying through the atomic cloud?

Ask any one of five newsmen who were on such an Air Force flight yesterday—this one, for example—and you might get five different answers. But agreements would be general on a few things.

First, there's the awe you feel for the massive, roiling column of brown and reddish particles of dust and nitrogenous matter towering before you. You have the fascinating beauty—the beauty of a cobra or water moccasin—as it begins to slither across the sky

Ominous-looking Cloud

You've heard so many tales of its deadliness that you are relieved not to be flying into the serpent's mouth. The main portion of the cloud, the so-called mushroom, rises too fast for a low flying B25 to touch. Looking up at its brownish gray underside is ominous enough from less than 10,000 feet below.

The real testing of its volatility is left to the F84G jet flyboys who can hit and run a lot faster and higher than we can. Their job does not arouse our envy.

Although the heat has gone out of the cloud, there's a natural apprehension about radioactivity. Despite official assurances that it takes sustained, heavy exposure to get a harmful or even latently injurious dosage of radiation, you can't help but feel that every rule has its exception—and you'd just as soon not be exceptional

No Strange Effects Felt

Yet as the plane pierces the gauzelike fabric of the lower cloud, or stem, you feel no different than on previous flights through nature's clouds. Ion chamber recorders and geiger counters point briefly to figures that would cause an X-ray technician no worry; several hundred millioroentgens (MR) could take pictures of your chest or teeth, but little else.

The film badge you are wearing looks about the same after 3 hours, 20 minutes of flying as when it was issued to you. Radiological laboratory development will show exactly how much radiation you were exposed to. Unofficially dosimeters indicated total in-flight exposure of 64 to 78 MR inside the plane. Outer surfaces picked up 160 MR.

Newsmen's boots registered 6 MR and some had almost that much on their hands. All they had to do was wash them.

Finally, there's the feeling of admiration for the skill and coolness of the Air Force men who fly these cloudtracking and sampling missions on every test in Nevada or the Pacific. They're scientists too, and their competence in collecting data on atomic cloud structure and radioactivity is building up a vital fund of knowledge.

It could mean the difference between victory and defeat in the dread event of atomic war.

Traffic Cases In City Court

Fines of $15 and costs were meted out to five motorists in Municipal Court Tuesday for traffic violations. Court officials also reported that 10 other motorists had been fined for traffic violations Monday.

A Marion man had his driving rights suspended for 30 days Monday when found guilty of a charge of driving with insufficient brakes. Elwood Dunn, 33, of 598 Darius St. was also fined $25 and costs, but the fine and costs were suspended.

Fines of $25 and costs were assessed from J. E. Whaley, 29, of near Marion and R. P. Kinkaid, 26, of 755 Bellefontaine Ave. on charges of reckless operation. K. H. Hayes, 27, of near Radnor was fined $15 and costs on a similar charge.

Other motorists appearing Monday, the charge and disposition were: Glen Fitch, 23, of Columbus, passing in a no passing zone, fined $15 and costs; S. A. Artz, 18, of 396 N. Main St., reckless operation, $35 bond forfeiture; F. D. Thacker, 41, of 464 Lee St., failure to yield the right of way, $15 and costs; R. J. Riester, 21, of 436 Ballentine Ave., Walter Werner of Columbus, and Herman Rogovin, 41, of Zanesville, all speeding, all fined $15 and costs each. Rogovin's fine was suspended.

In court action Tuesday, A. L. Bright, 27, of near Mount Victory was fined $15 and costs on a charge of having no mud flaps. Bertha R. Stiffler of near Cardington was given a suspended fine of $15 and costs on a charge of having no safety chains.

W. J. Wallace of 17 Veterans Housing Unit was fined $15 and costs on a charge of operating on a temporary license. Paul Bowen, 17, of Add, Ky., was given a $15 and costs fine on a charge of insufficient brakes, and E. H. Marburger, 19, of Columbus was fined $15 and costs on a charge of crossing a yellow line.

District Traffic Cases

Two arrests were made outside of Marion County Tuesday by state highway patrolmen from the Marion post.

George Dragosavac, 37, of Meadville, Pa., was fined $15 and costs on a charge of passing over a yellow line when he appeared before Mayor Don Healea of Cardington.

Marian T. Anderson of Washington, D. C., was fined $20 and costs by Delaware Municipal Judge Henry Wolf on a charge of excessive speed.

Ticket Fines Assessed

Three Marion drivers who failed to pay traffic tickets issued them by city police were fined a total of $16 and costs in Marion Municipal Court this morning.

Warrants for their arrest were issued Tuesday by Police Chief Thomas B. Coon.

All pleaded guilty in Municpal Court this morning. They were: Michael J. Ettore, 32, of 739 Silver St., fined $6 and costs for failure to pay six tickets; Clifford Danner ,26, of near Morral, $5 and costs for five tickets; and James P. McPeek, 41, of 274 N. State St., $5 and costs for five tickets.

A fourth driver ordered to appear in court was Paul E. Kunkle, 56, of 378 Brightwood Dr. He is accused of failure to pay four tickets and is to appear later for a hearing.

Pack 7 Holds Banquet

Cub Pack 7 of the Central Christian Church held its annual blue and gold banquet Monday night at Camp Owens. Decorations for the potluck dinner were in a cherry tree theme.

Cubmaster Robert Henderson presented awards to the cubs and gave den mother awards to Mrs. Floyd Beck, Mrs. Robert Henderson, Mrs. George Manley, and Mrs. Elta Fields.

The committee planning the program included Mr. and Mrs. Gerald Strauss, Mr. and Mrs. Delmer Mayer, Lawrence Kline, Mrs. Homer Comer, and Rev. Ashley Booth.

Charles Nichols was assisted by Paul Emery and Ralph Mishler in making arrangements for the banquet.

Congressional Pay Raise Bill Signed by Ike

WASHINGTON (AP) — President Eisenhower today signed the bill raising the pay of Congress members by 50 per cent, giving them $22,500 a year.

The measure also provides pay raises of $7,500 to $10,000 for approximately 400 federal judges, a $5,000 boost for the vice president and House speaker, and increases for U.S. attorneys, their assistants and several top justice department officials.

Eisenhower acted shortly after telling a news conference that Congress members did a good and necessary thing in voting themselves the pay raise.

He added, with a grin, the increase really won't be 50 per cent in take home pay because the government will take back half of it in income tax.

Ike

(Continued From Page 1)

minded that he told a recent news conference he would be glad to consider inviting Marshall Georgi Zhukov, Russia's new defense minister, to the United States. Eisenhower commented that he has given the matter some thought but has decided against extending an invitation at this time.

TAXES—In response to a question, Eisenhower said he naturally was delighted and gratified that the Senate Finance Committee voted 9-6 yesterday against the Democratic proposal to cut everybody's taxes by $20 next Jan. 1.

LABOR MERGER—In reply to a question as to whether he sees any danger of a labor monopoly as a result of the planned merger of the AFL and CIO, Eisenhower said he doubts any organization can set itself up as the bosses of any great number of Americans.

WHEAT FOR RUSSIA—The President ruled out any possibility of sending surplus American wheat to Russia. At his news conference last week Eisenhower said he had ordered a study of the idea, but that he personally looked askance at the proposal.

ANTARCTIC EXPLORATION — The President said emphatically, in replying to a question, that the United States has no intention of using the antarctic region as a proving ground for nuclear weapons in connection with the American expedition now in that area.

The only purpose of that expedition, he said, is to carry on a preliminary survey in preparation for observance of an international geophysical year in 1957-58.

These negotiations are being carried on separately from United Nations efforts to obtain release of 15 U.S. airmen who fought for the U.N. in Korea and were captured by the Chinese.

Cambodia King Steps Down in Favor of Father

PARIS (AP)—King Norodom Sihanouk abdicated Cambodia's throne today in favor of his father, Prince Norodom Suramarit, the French News Agency reported. He accused opposition political parties of hamstringing his reforms in the Indochinese kingdom.

The 33-year-old monarch, host only Monday to U.S. Secretary of State Dulles at a luncheon in Phnom Penh, was quoted as saying he intends to retire to the country and live a humble life "like that of my subjects."

Used Tactics Before

A music-writing leader of the fight for Cambodian independence from the French, though their ally in the war against Communist rebels, Sihanouk has used withdrawal tactics before to win his points. In those cases he retained his royal authority.

The French News Agency said the King announced his decison in a radio broadcast. It quoted him in part:

"My people are not unaware of the work accomplished by their King in the past three years, nor of the importance of the constitutional reforms which I envisaged to avoid a return to chaos.

Charges Intervention

"Certain political parties, among them the Democratic party of Son Ngoc Thanh, have intervened with the International (Armistice) Control Commisson to prevent me from carrying out my work. That is why, today, I announce publicly my intention to abandon power and to step down from the throne in order to live among my people a life that will hereafter be humble like that of my subjects. I will retire to the country and I will refuse to take with me anything from the palace. I give up power in favor of my father, Prince Suramarit."

The report took Paris by surprise. Only a month ago the King had won an overwhelming vote of confidence in a plebiscite he called to reassert his national popularity.

Police, Patrol Report Four Minor Mishaps

Three minor traffic accidents were investigated Monday by Marion police. State highway patrolmen reported one minor accident.

A collison in the 200 block on N. Main St. at 3:23 p.m. involved cars driven by Willam K. Drake, 69, of 226 N. Main St. and Ray P. Eager, 35, of 929 Uncapher Ave.

Each of the other two city accidents caused less than $100 damage and details were not reported.

2 Automobiles Collide

No one was injured when two cars collided at the intersection of State Routes 95 and 98 at 1:30 p.m. Tuesday, state highway patrolmen reported.

Southbound on Route 98 was Edward Busse, 58, of near Centralia, Mo., and eastbound on Route 95 was John W. Dorr, 36, of Canton. Extensive damage resulted to the left side, hood and grille of Busse's car, and moderate damage resulted to the right side and right rear wheel of the Dorr truck.

Busse was cited to appear in Marion Municipal Court on a charge of failng to yield the right of way.

Judge Resigns Delaware Post

Served Just One Year In Municipal Court

DELAWARE — Municipal Court Judge Henry Wolf, Delaware's first city magistrate, submitted his resignation Monday. He said he plans to devote ful ltime to his private law practice in the city.

The letter of resignation addressed to city council and City Manager Robert Mott was received just before a special council meeting Monday night.

Judge Wolf's resignation will take effect April 1.

He was elected to the municipal judgeship in November, 1953, and took office as the city's first municipal judge in January, 1954.

The letter of resignation said in part, "I shall continue to cooperate in every way for the continued success of the court and I would like to urge upon you to endeavor to obtain countywide jurisdiction for the court with a fulltime judge."

Judge Wolf was elected to a six-year term after the court was established by action of the Ohio Legislature in 1953. His term expires Jan. 1, 1960.

The vacancy will be filled temporarily by appointment by Gov. Frank J. Lausche and the appointee will serve the remainder of the unexpired term. Unless an appointment is made before the effective date of Judge Wolf's resignation, John Anderson, local attorney and acting judge this year, will occupy the court bench.

TEEN MEETING CANCELLED

A meeting of Marion County Teen League officials previously scheduled for Thursday night at Veterans Memorial has been cancelled, Charles Morbitt, league president, announced. The meeting was called off due to area basketball tournaments and will be held at a later date.

Preventive War Ruled Out

U.S. Taking Calculated Risk in Quest for Peace

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—Any time in recent years this country probably could have crushed Russia in a preventive war intended to destroy the Communists before they were strong enough to attack the United States.

That the war wasn't made, while this country had atomic superiority, was evidence the United States intended to try to sweat it out with the Russians in the hope war might never be necessary.

This may have been a fatal policy and in the end prove the undoing of the United States. No one can be sure the Russians, once they're sufficiently armed, won't make a sudden overpowering attack on this country.

Sir Winston Churchill yesterday, while saying the United States holds vast superiority over Russia in hydrogen bombs right now, predicted Russia may have enough of them in two to four years to try an attack on North America.

—:—

THE SWEATING-IT-OUT policy is therefore one of the obvious incalculables of history. So were some recent major decisions whose outcome couldn't be predicted either: defense of Korea, Berlin airlift, aid to Greece and Turkey.

There are alternative hopes to set beside the dismal prospect the United States when they are able:

1. That the Russian leadership may be civilized enough not to make war or force one.

2. That the two giants, once they're fairly equal in their ability to annihilate each other—perhaps both at the same time—and most of mankind too, will then be content not to fight but live side by side.

Churchill expressed some belief in hope No. 2, but not too vigorously, when he said: "A curious paradox has emerged. After a certain point has been passed it may be said that the worse things get, the better."

—:—

CHURCHILL DID SAY he didn't think the Russians could win a hydrogen war if they started one—but he didn't predict any winner in such a struggle—since the West, because of its head start on bombs, could retaliate from bases around the world.

But even if they were afraid to start a hydrogen war, for fear of what might happen to them in return, the Russians might trade on the whole world's fear of such a war.

They might do it by trying to pressure their neighbors into submission since the West would have to be careful about starting any defensive action which might lead to hydrogen war.

Any one of these possibilities is a guess but the Western statesmen, including Churchill, are in exactly the same position as any man in the street: they can only wonder what Russia will do when she has the power and meantime stay prepared.

But Churchill's statements about Russia's present inferiority in hydrogen weapons goes far to explain why the Communists have been careful so far not to begin an aggression which might bring a hydrogen rain on their heads.

RADIO STRIKE SETTLED

OSLO, Norway (AP)—A six-day strike of 72 program secretaries, announcers and newsmen at the government-owned Norwegian radio network was settled last night with a raise averaging $84 a year. Two officials kept the network operating with recorded programs during the strike.

USED TRUCK Headquarters FOR Marion County
A-1

1955 FORD F-100 ½ TON PICK-UP. Here's one that is just like brand new, has only 2500 miles and carries a new truck guarantee. Equipped with fresh air heater and 6 ply tires. Save several hundred dollars on this one.

1954 FORD F-100 ½ TON PICK-UP. We have used this truck in our own parts department. Equipped with Fordomatic, fresh air heater, tinted glass, deluxe cab and many other accessories. Buy this with a low down payment and take 24 months to pay.

1951 FORD F-100 ½ TON PANEL. This clean 8 cylinder one owner truck came in on a new Ford and is ready to go out and go to work. Has a brand new set of Firestone Tubeless tires. Hurry on this one.

1950 FORD F-600 2 TON CAB AND CHASSIS. We have just traded for this one. An extra long wheel base truck that will take a 14' to 16' body. Has 2 speed axle and extra good 8.25x20 10 ply tires. This truck is exceptionally clean and will not last long at our low price.

1949 STUDEBAKER 2 TON DUMP TRUCK. Act now on this money maker. Equipped with good 3 yard dump body and hydraulic hoist. Chassis has 2 speed axle and 8.25 tires. We can put you in business with a modest down payment.

1948 DODGE 2 TON STAKE TRUCK. A nice looking truck that was used by the Highway Department to haul detour signs and has not had hard use. Ready to go to work with a good 12' body complete with stake racks.

1948 FORD F-600 2 TON STAKE TRUCK. You will say you were fortunate to have found a good clean truck like this one. Equipped with 2 speed axle, good 8.25 tires and a well cared for 12' Stake Body. Act now on this one.

1948 CHEVROLET ½ TON WITH UTILITY BODY. Just the thing for a plumber or electrician who wants to haul small tools and supplies and would like to keep them locked up. This truck needs some work, however we have priced it accordingly.

1947 DODGE ½ TON WITH UTILITY BODY. This little truck has one of those handy utility bodies, complete with locks, metal drawers and other convenient features. The price we are asking for this truck is less than the value of the body alone.

1947 FORD F-100 ½ TON PICK-UP. Here's one of those hard to find low priced pickups. A very clean truck for its age, and in good mechanical condition. You'll like the price too.

Conveyor Belt Hearings May Finish Tonight

COLUMBUS, Ohio (AP)—A greying engineer with a crew-cut last night nearly wound up the opposition before an Ohio House Committee to a bill to give cargo-hauling belt conveyors the right of eminent domain

The engineer is Gen Robert G Breene, who was in charge of airport construction during World War II in the Pacific He now is a consulting engineer in Dayton

Gen Breene told the House Commerce and Transportation Committee cargo conveyors "are a failure as low-cost transportation"

Probably two more opposition witnesses are scheduled to appear before the committee tonight before the battle ends between the conveyor and the railroads

Third Attempt

For the third time in the last six years, the Riverlake Belt Conveyor Lines, Inc , of Akron is seeking a legislative grant of the right to condemn private land for a right of way for a conveyor belt hauling iron ore from Lake Erie to the Ohio River and coal from the river to the lake Railroad opposition in the past has blocked the Riverlake bid

Breene whose testimony took up the entire hearing last night, told the committee the so-called "rubber railroad" from Cleveland to East Liverpool would cost too much to be a paying proposition

Back in 1950, Breene said, he figured the cost of the big belt conveyor at 353 million dollars, by 1952, he said his estimate of the cost had risen to 387 millions Today, he testified he figures construction costs of the "rubber railroad" would be about 514 millions. Conveyor backers place the cost at under 300 millions.

Plans Changed

Sponsors of the belt line now say it would be 76 per cent on the ground That is a change from the original plan, Breene said but he contended it still would not reduce the total cost by more than 20 to 25 million dollars The original plan had the belt almost entirely elevated.

Breene contended that while engineers representing the belt's backers had told the committee the line is "engineeringly feasible they carefully have refrained from saying it is operationally or economically feasible

The facts, Breene declared, do not justify "this fantastic demand for unlimited power to seize a right of way as a public utility"

Breene contended that no conveyor belt over 20 miles in length would be a money-saving proposition over railroad transportation The Cleveland-East Liverpool line would be about 100 miles

In another phase of his attack Breene said "farmers do not like the idea of this cutting up of their property"

He referred to the fact the conveyor's right of way might cut farms in two

Breene declared the state's freight-hauling railroads hired him about five years ago to determine if a cargo conveyor was feasible He told the committee his conclusion was such a conveyor was not

Conveyor sponsors have contended their system would save about $1 per ton in transporting coal from mining areas to Lake Erie

Federal Grand Jurors Indict 5 at Cleveland

CLEVELAND (AP)—A federal court grand jury indicted three Ohio businessmen on charges of income tax frauds yesterday and named a pharmaceutical house and two of its officers in another indictment charging violations of drug laws

Named in the tax indictments were William Love 58 president of the Colonial Foundry Co of Louisville Ned Martin 55 of Silver Lake an Akron real estate broker, and Frank David, 45 a Canton restaurateur

The Rhodes Pharmacal Co of Cleveland with its president J Stanford Rose of Chicago and its vice president Jerome H Rose o New York were cited in the drug indictment

Love allegedly failed to report about $56 000 of his income in 1948 and 1949, when revenue agents said he earned more than $88 000 defrauding the government of almost $23 000 in taxes

Martin concealed about $54 000 of a $66 000 income during 1947, 1948 and 1949, the indictment charges

The grand jury contended David reported an income of only $1 116 in 1948 and 1949 when he made more than $27 000

The drug company and its officers, according to a six-county indictment, engaged in a widespread advertising campaign to market a drug called "tryptacin," misbranding it by offering it as a treatment for stomach ulcers

Lamb Requests FCC Hearing Be Terminated

WASHINGTON (AP) — Government lawyers today studied a move by Edward Lamb to ring down the curtain on the 5½ month Federal Communications Commission probe of his background.

In motions filed late yesterday, lawyers for the Toledo publisher and broadcaster said the FCC's hearing has proved nothing and it would be a waste of time, energy and money to go on.

They asked FCC Examiner Herbert Sharfman to find there has been no substance to allegations Lamb once associated with Communists, and to recommend that the commission renew forthwith the license of Lamb's Erie, Pa. television station, WICU. The license renewal is the basic issue in the case.

An accompanying motion asked the commission itself to delete as an issue in the hearing Lamb's contentions that FCC investigators tried to induce persons to testify falsely against him.

The hearing, which began Sept. 15, now is in recess.

Judge Reserves Decision In Schine Theater Case

BUFFALO, N. Y. (AP)—Federal Judge John Knight yesterday reserved decision on the 13-week-old trial of Schine theater interests on civil and criminal contempt charges stemming from an anti-trust suit.

The trial, which started Dec. 9, ended after Judge Knight denied motions for acquittal for all defendants. He said he would not hand down a decision for at least two months.

Defendants were charged with failing to comply with a 1949 court order directing disposal of 39 theaters in four states including Ohio, arising from an anti-trust suit that began in 1939.

Father of Two Charged With Coed's Slaying

NEW YORK (AP)—A 25-year-old father of two children was charged today with the assault-slaying of New York University coed Ann Yarrow. He was first arrested on a separate assault complaint.

After 12 hours questioning, William Patrick Farrell was booked on a charge of homicide.

Miss Yarrow, a graduate student, was found assaulted, strangled and stabbed with a knife 37 times in a lower Eastt Side apartment Feb. 6.

Police nabbed Farrell in a cemetery yesterday after a short chase from the apartment of his sister-in-law Irene Miller, 20, on East 3rd Street, about a block from where Miss Yarrow, 23, was slain.

A slim, good-looking man of medium build, Farrell went to Mrs. Miller's home yesterday morning and, with a butcher knife in hand, robbed and assaulted her in front of her 3-year-old son, police said.

Before assaulting the woman, police said, he chased from the apartment Mrs. Miller's stepfather, who called police. Farrell fled from the rear of the apartment when they arrived, but was caught after police fired a warning shot.

Police linked Farrell with the Yarrow murder during questioning on Mrs. Miller's complaint. Through the evening they tackled the dirty job of dredging for a knife they said he told them he had thrown down a sewer.

After ordering Farrell charged with homicide, Asst. Dist. Atty. Vincent J. Dermody said he had taken a statement from the man, but did not disclose its contents.

Asked if Farrell had admitted the slaying, Dermody replied, "No comment." He also declined to say if a knife found by police in the sewer was the Yarrow murder weapon.

Man Falls Three Stories, Suffers Broken Ankle

PITTSBURGH (AP)—Edward Abbott, 29, was dressing in the bedroom of his third-floor apartment when he tripped and fell over a trunk. Crash! Out the window he went.

He fell 30 feet, landing in a pile of stones and bricks, and suffered a fractured ankle and facial cuts.

"I'm not interested in knowing what saved me," he told friends. "I just don't intend to have any need for information of that sort again."

N.Y. Stock Quotations

NEW YORK (AP)—The stock market stepped ahead briskly today in the early afternoon

Prices probed into new high territory on the shoulders of yesterday's new all-time high scored by The Associated Press average of 60 stocks.

Gains were well distributed throughout the list with especial emphasis on the railroads, steels motors, oils and others

The rise carried prices up around 2 points at the best with some on out ahead of that level Losses were rather infrequent and seldom went beyond a point

Among gainers were Royal Dutch Petroleum Woolworth Pacific Western Oil Southern Pacific Baltimore & Ohio Southern Railway, American Telephone Superior Steel Chrysler, Boeing United Aircraft Wilson Co Aluminum Co of America Schering, and Kennecott Copper.

REX MORGAN, M.D. By Dal Curtis

I DON'T LIKE MORGAN'S TRYING TO INVESTIGATE THE CRANDALL WOMAN'S DEATH!
WITH THE CORONER IN YOUR HIP POCKET, WE HAVEN'T A THING TO WORRY ABOUT!
INCIDENTALLY, WHAT DO YOU REALLY THINK KILLED HER?
HOW DO I KNOW?
YOU DON'T THINK THE INJECTION KILLED HER, DO YOU?
HOW COULD IT? IT'S NOTHING BUT WATER WITH IODINE TO COLOR IT UP!
BRADLEY EDGARTON
WE BETTER CLEAR OUT OF HERE, CLEO!
HAVE YOU GOT ROCKS IN YOUR HEAD? WE'RE TAKING THESE JERKS FOR BETTER THAN TWO HUNDRED A DAY! NO PROFESSOR --- WE'RE STAYING RIGHT HERE!

STEVE CANYON By Milton Caniff

Col. Canyon: My father has forbidden me to see you again. Holly Hall
FOR PETE'S SAKE, DOE — WHAT DO YOU THINK OF THIS?
OH, STEVE — IT'S PATHETIC!
THE CHILD MAY ONLY BE DRAMATIZING HERSELF — BUT THEN AGAIN...
I'LL HAVE TO GO SEE MR. HALL AND FIND OUT WHAT THIS IS ALL ABOUT...
YOUR BODYGUARD-MAID AND DOORMAN ARE THERE, SO YOU'LL BE SAFE! I'LL SEE YOU — WHY ARE YOU GRINNING?
WONDERING IF DIPLOMATS ARE ALLOWED TO CARRY SHOTGUNS!

SCOTT'S SCRAP BOOK By R. J. Scott

SAVES OWN HIDE

BOYNE CITY, Mich. (AP)—A three-point buck deer took a look at his possible future here. He crashed through a window. What he saw apparently didn't please him. He crashed out a door—at the Jowes Leather Co., where he had jumped into the tannery.

THE TV KID

BROCKTON, Mass. (UP) —Little Donald's all right, but how about the television set? Twice in one day tiny Donald Reed was taken to Brockton Hospital but nothing was found wrong with him. Donald had twice chewed up parts of television tubes and suffered no ill effects.
